## Chapter 1 An Introduction to Tax

### SOLUTIONS MANUAL

#### Discussion Questions

- (1) [LO 1] Jessica's friend Zachary once stated that he couldn't understand why someone would take a tax course. Why is this a rather naive view?

*Taxes are a part of everyday life and have a financial effect on many of the major personal decisions that individuals face (e.g., investment decisions, evaluating alternative job offers, saving for education expenses, gift or estate planning, etc.).*

- (2) [LO 1] What are some aspects of business that require knowledge of taxation? What are some aspects of personal finance that require knowledge of taxation?

*Taxes play an important role in fundamental business decisions such as the following:*

- *What organizational form should a business use?*
- *Where should the business locate?*
- *How should business acquisitions be structured?*
- *How should the business compensate employees?*
- *What is the appropriate mix of debt and equity for the business?*
- *Should the business rent or own its equipment and property?*
- *How should the business distribute profits to its owners?*

*One must consider all transaction costs (including taxes) to evaluate the merits of a transaction.*

*Common personal financial decisions that taxes influence include: choosing investments, retirement planning, choosing to rent or buy a home, evaluating alternative job offers, saving for education expenses, and doing gift or estate planning.*

- (3) [LO 1] Describe some ways in which taxes affect the political process in the United States.

*U.S. presidential candidates often distinguish themselves from their opponents based upon their tax rhetoric. Likewise, the major political parties generally have*

Agoston, 2013-11-11 My aim in this introductory text is to present a comprehensible discussion of certain technical topics and recent developments in color science that I believe are of real interest to artists and designers I treat a number of applications of this knowledge for example in selection and use of colorants pigments and dyes and light Early in the book I discuss what color is and what its characteristics are This is followed by a chapter on pertinent aspects of light light as the stimulus that causes the perception of color Then the subject of the colors of opaque and transparent nonfluorescent and fluorescent materials is taken up There are sections on color matching color mixture and color primaries Chapter 6 introduces the basic ideas that underlie the universal method CIE of color specification Later chapters show how these ideas have been extended to serve other purposes such as systematic color naming determining complementary colors mixing colored lights and demonstrating the limitations of color gamuts of colorants The Munsell and the Ostwald color systems and the Natural Colour System Sweden are explained and the new Uniform Color Scales Optical Society of America are described Color specification itself is a broad topic The information presented here is relevant in art and design for those who work with pigments and dyes or with products that contain them such as paints printing inks plastics glasses mosaic tesserae etc

**Using the Engineering Literature, Second Edition** Bonnie A. Osif, 2011-08-09 With the encroachment of the Internet into nearly all aspects of work and life it seems as though information is everywhere However there is information and then there is correct appropriate and timely information While we might love being able to turn to Wikipedia for encyclopedia like information or search Google for the thousands of links on a topic engineers need the best information information that is evaluated up to date and complete Accurate vetted information is necessary when building new skyscrapers or developing new prosthetics for returning military veterans While the award winning first edition of Using the Engineering Literature

used a roadmap analogy we now need a three dimensional analysis reflecting the complex and dynamic nature of research in the information age Using the Engineering Literature Second Edition provides a guide to the wide range of resources available in all fields of engineering This second edition has been thoroughly revised and features new sections on nanotechnology as well as green engineering The information age has greatly impacted the way engineers find information Engineers have an effect directly and indirectly on almost all aspects of our lives and it is vital that they find the right information at the right time to create better products and processes Comprehensive and up to date with expert chapter authors this book fills a gap in the literature providing critical information in a user friendly format      **Catalog of Copyright Entries.
