Writing Your Dissertation with Microsoft Word Vincent Kiernan, 2005 A dissertation is the crowning achievement of years of graduate study. But many graduate students struggle long hours with formatting their dissertations properly. This book guides a graduate student step by step through the process of using Microsoft Word to produce a dissertation that meets the requirements of the student's graduate school the first time it's submitted. Throughout the book, uses real-world examples of formatting requirements from actual graduate schools, and is amply illustrated to provide a visual guide to working through Microsoft Word. Tips and tricks about Word will help a graduate student devote time to the content of the dissertation, not its formatting.
