Rocky Mountain Guides Association:

Ecology & Wonder in the Canadian Rocky Mountain Parks World Heritage Site Robert W. Sandford, 2010 Ecology and Wonder celebrates Western Canada's breathtaking landscape. The book makes several remarkable claims. The greatest cultural achievement in the mountain region of western Canada may be what has been preserved, not what has been developed. Protecting the spine of the Rocky Mountains will preserve crucial ecological functions. Because the process of ecosystem diminishment and species loss has been slowed, an ecological thermostat has been kept alive. This may well be an important defence against future impacts of climate change in the Canadian West. Bottleneckers William Mellor, Dick M. Carpenter II, 2016-12-13. Bottleneckers is a person who advocates for the creation or perpetuation of government regulation, particularly an occupational license to restrict entry into his or her occupation, thereby accruing an economic advantage without providing a benefit to consumers. The Left, Right, and Center all hate them: powerful special interests that use government power for their own private benefit. In an era when the Left hates fat cats and the Right despises crony capitalists, now there is an artful and memorable one-word pejorative they can both get behind: bottleneckers. A bottleneckeer is anyone who uses government power to limit competition and thereby reap monopoly profits and other benefits. Bottleneckers work with politicians to constrict competition, entrepreneurial innovation, and opportunity. They thereby limit consumer choice, drive up consumer prices, and they support politicians who willingly overstep the constitutional limits of their powers to create, maintain, and expand these anticompetitive bottlenecks. The Institute for Justice's new book, Bottleneckers, coins a new word in the American lexicon and provides a rich history and well-researched examples of bottleneckers in one occupation after another, from alcohol distributors to taxicab cartels, pointing the way to positive reforms.
