Crowley, Heinz Gerhäuser, Alexander Pflaum, Janina Schmidt, Reiner Wichert, 2008-11-14 This volume contains the proceedings of the Second European Ambient Intelligence AmI Conference The conference took place in Erlangen and Nürnberg November 19-22 2008 The concept of ambient intelligence AmI was introduced in the late 1990s as a novel paradigm for electronic environments for the years 2010-2020 It builds on the early visions of Weiser describing a novel mobile computing infrastructure integrated into the networked environment of people According to early definitions AmI refers to smart electronic surroundings that are sensitive and responsive to the presence of people The added value for the multi dimensional society
