A NEW FEATURE FOR ON-LINE USE

We have now linked these measurement points  which are related to the oscillograms shown on the signal overview page. As example clicking on the measurement point  guides you to the matching oscillogram on the signal overview page. The next click will show the new chosen signal guides you to the related measurement point on the module. Finally, a third click, now onto the measurement point  on the module, takes you back to the starting point inside the schematics.
