Help

The IP Allocation table lists DHCP clients and IP Allocated clients. You may want to create an IP Allocated client so that it will always get the same IP address. The IP Allocated clients are still configured as DHCP clients at the client end, but will always be served the same IP address by the device DHCP server.

To create an IP Allocated client select the [Allocate](#) button next to the client. The IP Allocation Entry section appears. Choose a Fixed address for the client and click "Save".

To change an IP Allocated client back to a normal DHCP client select it and click "Allocate". Then in the IP Allocation Entry section select "Address from DHCP pool" and click "Save".

Sometimes the lease and the LAN Host Discovery table will not change immediately. You may have to renew the lease or request service at the client for the change to complete.

Complex Arbitrations Bernard Hanotiau, 2020-07-10 *Complex Arbitrations: Multi-party, Multi-contract and Multi-issue A Comparative Study*, Second Edition. Bernard Hanotiau. Arbitrations involving more than two parties and complex multi-contractual issues are becoming more and more prevalent every year in every major jurisdiction worldwide. This fully updated, extensively revised edition of a far-seeing 2006 book that has been greatly valued and widely used remains the only comprehensive analysis of all the issues arising from multi-party, multi-contract arbitrations, including those involving States and groups of companies. The numerous factors and problems analysed in depth include the following theories, on the basis of which various courts and tribunals determine who are parties to the arbitration clause and whether a non-signatory may be part of the proceedings; to what extent one can bring to a single arbitration proceeding the various parties who have participated in a single economic transaction through several contracts; reasoning to follow when it comes to deciding whether another company of the group can be joined to the arbitration; whether a party to a complex contractual structure can intervene voluntarily in the proceedings; under what conditions arbitrations may be consolidated; to what extent res judicata applies when a second arbitration is initiated between the same parties on different legal grounds; how and to what extent one can overcome the inconveniences that arise from having several parallel proceedings; and enforcement of multi-party, multi-contract awards. Features of particular value to the practitioner include in-depth analysis of ad hoc and institutional awards rendered under the auspices of numerous arbitral institutions; analysis of relevant national case law based on hundreds of court decisions from all over the world; and appendices specifying multi-party, multi-contract arbitration

clauses provisions of international conventions and relevant national legislative and institutional rules The first edition has been used all over the world frequently referred to by courts and tribunals when one of its topics is addressed The second edition with its increased volume of arbitral awards and cases from many more jurisdictions its new scenarios its updates on new legislation and rules and its newly researched jurisprudence will help lawyers and corporate counsel solve the increasingly complex procedural issues confronting them in dealing with multi party multi contract disputes Law professors and students of dispute resolution have here a powerfully authoritative consideration of one of the most salient aspects of current international practice
