running away to work again on the anniversary of her sister's death. Then a power engineer walks into Zuri's office and claims someone is stealing energy from Power Island One and they've tried to kill her to cover it up. The more Zuri digs, the more it's clear someone's been tinkering in the shut-down fusion labs. They're going to dangerous lengths to hide it, and it's been happening right under her nose. Which is how Regional Directors lose their jobs. Zuri's already lost her better half; she can't afford to lose this too. You Knew the Price is the second of four tightly connected solarpunk novels in a near future climate fiction series. It's about our future, how society lives on invisible things like electricity and trust that are far too easy to break, and how our most difficult moments are often when we discover the only path forward is healing, not just ourselves but the world. If you enjoyed the optimistic climate solutions in Kim Stanley Robinson's *Ministry for the Future* or the cozy cooperative future in Becky Chambers' *Monk and Robot* series, you will enjoy *Nothing is Promised*. When You Had Power (Nothing is Promised 1) Susan Kaye Quinn, 2020-11-24. For better or worse. In sickness and in health. It's a legal vow of care for families in 2050, a world beset by waves of climate-driven plagues. Power engineer Lucia Ramirez long ago lost her family to one she'd give anything to take that vow. The Power Islands give humanity a fighting chance, but tending kelp farms and solar lilies is a lonely job. The housing AI found her a family match, saying she should fit right in with the Senegalese retraining expert who's a force of nature, the ex-Pandemic Corps cook with his own cozy channel, and even the writer who insists everything is stories all the way down. This family of literal and metaphorical refugees could be the shelter she's seeking from her own personal storm. She needs this one to work. Then an unscheduled power outage and a missing turtle bot crack open a mystery. Something isn't right on Power Island One, but every step she takes to solve it, someone else gets there first, and they're determined to make her unsee what she's seen. Lucia is an engineer, not a detective, but fixing this problem might cost her the one thing she truly needs: a home. *When You Had Power* is the first of four tightly connected solarpunk novels in a near future climate fiction series. It's about our future, how society will shift and flex like a solar lily in the storms of our own making, and how breaks in the social fabric have to be expected, tended to, and healed. Because we're in this together now more than ever before. If you enjoyed the optimistic climate solutions in Kim Stanley Robinson's *Ministry for the Future* or the cozy cooperative future in Becky Chambers' *Monk and Robot* series, you will enjoy *Nothing is Promised*.
