Jack Connor,2019-01-09 People at certain points of life all over ask questions of wonder who how when why or what There have been thousands of questions from billions of people on or of life from individual questions to the world to the universe Some have been solved while others continually seek out answers We as a whole intuitively ask more all the time We all enter the same way just in different places and times It proves we re all connected in some sort of way whether we meet or not Our existence shows we are here to experience the different highs and lows in between How that s executed or accomplished is different for everyone One needs others to assist us in achieving it or them We do the same for others in return We may or may not enjoy the lesson that comes from it We may not even understand any of it We may not see value in it but later we do Experiences may prove different what we may have learned or believed on the paths we chose We can be humbled and we can also do great things The definition of success is different for each The definition of right and wrong is the same We re all energy We absorb the energy around us if we allow it to with the influences that create it These can be fantastic and paralyzing at the same time depending on the many factors that allow it manifest They are created by beliefs emotions and experiences Whatever allows us to exist is seen as different for anyone It allows us to make and learn from mistakes if we choose to It allows us to create our own fate destiny and lives with the limited and unlimited resources we are given The definition of life and success in it is different for anyone you ask The reality in how one sees and values it is different too Jack Connor is no different than anyone else At least he did Through his experiences he s had finding the difficult lessons in it has blessed him with a new outlook toward it Many things happened that he had no control over Some experiences could ve been avoided all together but Jack chose not to let that happen He made mistakes and then more He lived in denial based on fear Things had to happen for the possibility of change Some made sense while others didn t His actions effected far more than he knew The lessons learned and the highs and lows of it still continue because of it the decisions he chooses to see life in Finding hope when there was none being humbled and rising back Miracles happening Finding a new way to live allowed him being placed where he was needed at the right time It s something he never expected There was no guarantee either But neither was he What happened to him has happened to others before and will happen to others again If you allow it to For whatever reason one change lead to another which allowed for him to see the perception of how his life was and the place he was placed in for a moment of time The results of this may never be known fully or until time allows it to It may take a lifetime or more And like everything else the only question he has is what s next And why how who and when **Driver** ,1973 **Course in Physical Education for the Common Schools of Kentucky** Kentucky. library that the internet represents in our times has made people in favor of and against its effects in our habits behavior and even brain structure The fact is that they will never agree if it is beneficial or not as the individuals in the world are varied as are their needs habits ideologies and other aspects In such a small nucleus like a family there can be discrepancies concerning said quandary The truth is that it exists and it is the main tool of our time However heads of households teachers and other similar people concerned over the moral good that this tool influences have come to prohibit it in several places this seems sad to me as this tool contains all of the human knowledge up to today and it would be a betrayal to our advance as a humanity denying us the right to enjoy this knowledge That s why I have collected in this book and in those that will follow only some of the best ideas that the majority of professionals will suggest that are found on the internet After being a website and self help book translator from four languages to Spanish I have realized that not all languages have the same information on the internet I have noticed also that there is very valuable information out there but it is found in specialized blogs or in very lengthy articles that few people wish to read in their short navigation routine This is the reason that I decided to do this collection A book has a different manner It claims a distinct moment for itself just like the one network navigation claims for itself It usually barely gives us time to read publications that interest us or manage to distract us or improve our mood stressed by the crazy and unending movement of the times that we live in To that end I have tried to present the material in the most enjoyable way possible and in small chapters that are good for reading while waiting in line in transportation in the last minutes of t
