**Trade and Receivables Finance** Stephen A. Jones, 2018-11-13 Trade and Receivable Finance provides the definitive practical guide to the evaluation and mitigation of risk and the financing of international trade This authoritative manual is built upon more than 42 years of experience in the trade and receivables finance market and carries the endorsement of The London Institute of Banking and Finance The contents are comprehensive incorporating clause examples specimen documents financier checklists and diagrams The traditional method of commercial lending assessment places

primary importance on the ability of the borrower to repay the financier. However, this form of evaluation often results in insufficient credit appetite to release the required level of financial support for a company involved in cross border trade. When a trade related proposition is properly evaluated so that the transactional risks are fully understood and mitigated to an acceptable level and the source of repayment is identifiable and considered reliable, a well structured trade and receivables finance facility reduces the risk of default when compared to conventional lending products and can generate additional credit appetite. This book will become a constant go to companion for transaction banking teams, bank relationship managers, specialist client facing trade and invoice finance specialists, middle and back office trade advisory personnel, credit analysts, alternative market financiers, export development agencies and credit insurers. The techniques described in this book are applied to an extensive range of international trade scenarios in *The Trade and Receivables Finance Companion: A Collection of Case Studies and Solutions* Palgrave 2020.

*China Business* Christine Genzberger, 1994. Provides resource for capitalizing on import export and foreign investment opportunities in China.

**International Marketing** John Shaw, Sak Onkvisit, 2008-01-28. Marketing is a universal activity that is widely applicable regardless of the political, social or economic systems of a particular country. However, this doesn't mean that consumers in different parts of the world should be satisfied in the same way. The 4th edition of *International Marketing* has been written to enable managers and scholars to meet the international challenges they face everyday. It provides the solid foundation required to understand the complexities of marketing on a global scale. The book has been fully updated with topical case studies, examples of contemporary marketing campaigns, the most relevant discussion topics as well as the most up to date theories, references and research findings. It is this combination of theory and practice that makes this textbook truly unique, presenting a fully rounded view of the topic rather than an anecdotal or descriptive one alone. The book includes chapters on Trade distortions and marketing barriers, Political and legal environments, Culture, Consumer behaviour, Marketing research, Promotion and pricing strategies, Currencies and foreign exchange. Accessibly written and designed, this book is the most international book on marketing available that can be used by undergraduates and postgraduates the world over. A companion website provides additional material for lecturers and students alike.
