Corporate governance a subject that a few decades ago escaped the attention of all but a handful of academics and shareholders has gradually become a central concern worldwide This book contributes to the existing literature on the structure and effectiveness of corporate boards It comprises three topics that address distinct research questions on board structure the deployment of board resources to monitoring and advisory duties and the use of equity based incentives in the compensation packages of directors Firstly the book provides strong new evidence on the importance of corporate board functions in value creation Secondly it provides some evidence of the potential conflict between the two primary functions of corporate boards The results indicate that while the board s advising quality weakens when the board is principally devoted to monitoring duties the presence of advisory directors on the board does not have any impact on the effectiveness of board oversight which offers a more complete view on the tradeoffs between the board s two major functions Finally the results suggest that the closer directors compensation is tied to the firm s stock the more consistent corporate acquisition decisions are with shareholder interests      **Strategic Board Recruitment** Robert W. Kile, J. Michael Loscavio, 1996 Board recruitment is one of the most important and least understood functions of nonprofit boards The search for new members often involves well intentioned volunteers with little or no recruiting experience contacting well intentioned candidates with little or no board experience Such an approach to board recruitment is too limited in today s competitive nonprofit environment where leadership fund raising diversity and vision are needed more than ever The eight step Strategic Board Recruitment model is based on the systems and techniques used by executive search professionals it has been tailored to guide nonprofits in their ongoing efforts to strengthen their boards This model provides a framework for executing and institutionalizing a results oriented recruitment process      **Building a Successful Family Business Board** Jennifer M. Pendergast, John L. Ward, Stephanie Brun de Pontet, 2011-02-15 Boards of directors can help businesses succeed yet many family businesses do not have functioning boards of directors that play a valuable role in providing oversight to their businesses In Building a Successful Family Business Board the authors show why private firms need the in depth expertise and objective feedback that a well chosen board including qualified independent directors can provide and demonstrates how owners and directors can work together to ensure a long and profitable life for the firm The book provides best practices for owners and directors with step by step guidelines for developing and managing a board from writing the initial prospectus through conducting lively meetings to maintaining open honest communication between owners directors family members and other stakeholders in the firm      **Annual Report of the Board of Directors** Iowa State Agricultural Society, 1884
