Advantages and Negative Effects of Cell Phones.

The essay talks about the good and bad things which come across while using mobile phones. The words used are "big boxes" to describe old-fashioned units. This was merely the start of the cell phone revolution. 2010s cell phones can perform multiple tasks. They have the ability to send and receive SMS messages, video messages, and use social media. All the modern tools included on mobile devices somehow make the original intent of the phone old-fashioned.

The paper also talks about how almost the entire population of the world seems to have cell phones. Regardless of one's economic status, one possesses a modern cell phone. Publishing anything on workspaces is possible "on the move". Thanks to cell phones, anyone in the company can view it. It is an advantage to people who work in certain fields. Nowadays, workers can keep in touch with absent colleagues during the day.
