Saudi Arabia International Monetary Fund,2011-09-21 Over the last few decades the economy of Saudi Arabia has strengthened as oil prices increased with the rebound in global economic activity Despite this vulnerabilities to a sustained decline in the oil price have increased Executive Directors have commended the authorities for their continued stabilizing role in the oil markets They have encouraged in creating more job opportunities for nationals and improving access to housing finance They have encouraged the central bank to continue in strengthening the regulatory and supervisory framework **World Economic Outlook, October 2016** International Monetary Fund. Research Dept.,2016-10-04 According to the October 2016 World Economic Outlook global growth is projected to slow to 3.1 percent in 2016 before recovering to 3.4 percent in 2017 The forecast revised down by 0.1 percentage point for 2016 and 2017 relative to April's report reflects a more subdued outlook for advanced economies following the June U.K. vote in favor of leaving the European Union Brexit and weaker than expected growth in the United States These developments have put further downward pressure on global interest rates as monetary policy is now expected to remain accommodative for longer Although the market reaction to the Brexit shock was reassuringly orderly the ultimate impact remains very unclear as the fate of institutional and trade arrangements between the United Kingdom and the European Union is uncertain Financial market

sentiment toward emerging market economies has improved with expectations of lower interest rates in advanced economies reduced concern about China's near term prospects following policy support to growth and some firming of commodity prices. But prospects differ sharply across countries and regions with emerging Asia in general and India in particular showing robust growth and sub-Saharan Africa experiencing a sharp slowdown. In advanced economies a subdued outlook subject to sizable uncertainty and downside risks may fuel further political discontent with anti integration policy platforms gaining more traction. Several emerging market and developing economies still face daunting policy challenges in adjusting to weaker commodity prices. These worrisome prospects make the need for a broad based policy response to raise growth and manage vulnerabilities more urgent than ever.

Reconciliation in Northern Nigeria Olayinka Oluniyi, 2017-09-08. In this book Dr Olufemi Oluniyi takes a fresh look at Muslim-Christian violence which has become synonymous with the name of Northern Nigeria. It is fresh in the sense that he takes a historical approach to the problem dating back to the founding of Northern Nigeria. This approach inevitably brings to the fore the culpability of the colonial government for the institutionalisation of inequality and for pursuing policies which are tantamount to planting the seeds of religious violence for post independence fruitage and harvest. By highlighting the role of the colonial administration he is by no means suggesting that post independence perpetrators of violence are less culpable for their crimes against humanity. Rather the highlight is meant to raise awareness of what was really going on despite official cover up.

Eighteenth-Century Conservatism in Christianity and Islam Ralph A. Leo, 2024-06-28 This book examines the world of religious conservatism in Christianity and Islam through a comparison of two eighteenth century traditionalist icons Jonathan Edwards and Mu ammad Ibn Abd al Wahh b Spanning the globe from America to Arabia this book explores the major themes in the lives and works of these most unlikely of bedfellows the Reverend and the Shaykh In many ways Edwards and Ibn Abd al Wahh b are about as far apart as two figures could possibly be Without minimizing their very real differences however this comparative study finds numerous parallels that beckon even the most conservative of Christians and Muslims to take a second look at their own faith as well as the faith of the other The numerous surprising congruences in the worlds of the Reverend and the Shaykh as well as in their conceptions of God humanity and the faith of the other suggest that we stand much to gain from a reassessment of long held views that could lead to wholly new patterns of engagement With implications in diverse fields such as politics law philosophy theology history warfare and anthropology this book unearths striking parallels in Edwards and Ibn Abd al Wahh b that have heretofore gone unnoticed or largely ignored
