Monroe-Moore, 2012-02-21 In The New Meaning of Educational Change Fullen wrote Low morale depressed feeling unfairly blamed for the ills of society You must be a teacher This quote

spoke volumes to me as I watched politicians jockeying for position by spewing their recycled political rhetoric and then launch an all out attack against public school teachers In years past these attacks had been levied against those receiving social security Medicare and Medicaid which mainly affected the poor disabled and elderly Dont get me wrong these issues are still on the table but I guess politicians felt they had beaten them with a dead horse and needed another soft target to spark the publics interest so public school teachers was it They struck with a vengeance firing public school teachers by the thousands throughout the country In an attempt to reduce the collective bargaining power of teacher unions such as American Federation of Teacher AFT in Texas they claimed the only way they knew to help balance the state and district school budget shortfalls was to rescind some of the benefits they had agreed too It hurts when the profession Ive dedicated over half of my adult life 25 yrs to is under attack by politicians and others that have no true concept of whats involved in being a public school teacher We have absolutely nothing to do with the decision making process First were told to do one thing and then were told to do something entirely different Its almost schizophrenic To all of my colleagues that remain on the frontlines of public education and those that are planning to take up the banner This books for you You might not have control over the decisions being made outside your classroom but you can control those things going on inside I provide ways to control student behavior by the design of your classroom to the use of a simple yellow tablet

The Complete Home Learning Sourcebook Rebecca Rupp,1998 Lists all the resources needed to create a balanced curriculum for homeschooling from preschool to high school level

Cognitive Development from a Strategy Perspective Patrick Lemaire,2017-09-21 Cognitive Development from a Strategy Perspective recognises the outstanding scientific legacy of Robert S Siegler as a pioneer of modern research on cognitive development throughout the lifespan This volume presents a collection of essays written by leading scholars in the field using cutting edge research to illustrate how Siegler s work and ideas lay the groundwork for much of the modern studies on cognitive development The collection includes chapters which examine strategic aspects of lifespan cognitive development change mechanisms underlying cognitive development and numeracy acquisition with emphasis given to the application of new strategies for education It explores conceptual and methodological frameworks to best study and understand development during childhood and adulthood and the role of foundational core knowledge on development and acquisition These foundational issues are examined from various angles and finally integrated in a concluding panoramic chapter written by Siegler himself Cognitive Development from a Strategy Perspective offers valuable reading for graduates and researchers in cognitive development and mathematical cognition as well as those at the interface of psychology and education
