People and Computers XIV — Usability or Else! Sharon

McDonald, Yvonne Waern, Gilbert Cockton, 2012-12-06 Currently we are at the beginnings of widespread wireless connectivity and ubiquitous computing The Web is merging with a variety of technologies cell phones laptop computers hand held organisers information appliances and GPS and other sensors The capability for access anytime and anywhere is here The increasing frequency of cell phone calls at inappropriate times testifies that people no longer can easily control access Devices can determine where they are located and can make a range of information available to users as well as make users available to others or their devices We have proposed a general technique that promises to assist in mediating access It capitalises on advantages afforded by computation Hollan Stometta 1992 We first described the negotiation technique in the context of problems involved in scheduling meetings and then showed that similar issues which at first may seem unrelated but in fact have much in common arise in other contexts One such activity gaining immediate access is currently of growing importance because of expanding connectivity via wireless technology Cell phones and related technologies make it possible to be constantly available for synchronous interaction At times this can be advantageous but the associated costs and benefits result in a complex tradeoff space for designers as well as users

Mobile Communication and Greater China

Wai-chi Rodney Chu, 2012 This edited volume examines mobile phone use in China Unlike most studies on ICT development in China this book argues for the importance of the cultural realm as captured in mobile phone usage in reflecting the normative basis and struggle of the people It stresses how the mobile phone is in fact an important means by which one can understand a rapidly changing China A key concern of the book is to assert the uniqueness of China's experience in mobile phone usage This uniqueness is encapsulated by the phrase riding the double juggernaut in that Chinese society is exposed to a rapid process of industrialization and cyberization in a short period of time The contributors maintain that such density of experience under a compressed period when the society has a thick cultural heritage of its own and yet is still under a dictating rule all come together to provide a unique situation in China

The Ringtone Dialectic Sumanth

Gopinath, 2013-07-19 The rise and fall of the ringtone industry and its effect on mobile entertainment music television film and politics A decade ago the customizable ringtone was ubiquitous Almost any crowd of cell phone owners could produce a carillon of tinkly beeping synthy musicalized ringer signals Ringtones quickly became a multi billion dollar global industry and almost as quickly faded away In *The Ringtone Dialectic* Sumanth Gopinath charts the rise and fall of the ringtone economy and assesses its effect on cultural production Gopinath describes the technical and economic structure of the ringtone industry considering the transformation of ringtones from monophonic single line synthesizer files to polyphonic MIDI files to digital sound files and the concomitant change in the nature of capital and rent accumulation within the

industry He discusses sociocultural practices that seemed to wane as a result of these shifts including ringtone labor certain forms of musical notation and representation and the creation of musical and artistic works quoting ringtones Gopinath examines declines reversals and revivals of cultural forms associated with the ringtone and its changes including the Crazy Frog fad the use of ringtones in political movements as in the Philippine Gloriagate scandal the ringtone s narrative function in film and television including its striking use in the films of the Chinese director Jia Zhangke and the ringtone s relation to pop music including possible race and class aspects of ringtone consumption Finally Gopinath considers the attempt to rebrand ringtones as mobile music and the emergence of cloud computing
