Introduction

IMPORTANT:

This document is intended for use by authorized NOKIA service centers only.

"Service Schematics" was created with focus on customer care.

The purpose of this document is to provide further technical repair information for NOKIA mobile phones on Level 1/4 service activities.

The "Signal overview" page gives a good and fast overview about the most important signals and voltages on board.

Saving process time and improving the repair quality is the aim of this document.

It is to be used additionally to the service manual and other training or service information such as Service Bulletins.

All measurements were made using following equipment:

Nokia repair kit	Phoenix version 2004.04 & 1.10
Oscilloscope	Fluke PM 1180A/B
Spectrum Analyzer	Advantest R3162 with an analog probe
RF-Generator / GSM Tester	Rhode & Schwarz CM2 100
Multimeter	Fluke 73 Series II

While every endeavour has been made to ensure the accuracy of this document, some errors may exist. If the reader finds any errors, NOKIA shall be notified in writing.

Nokia E61 User Guide, 2007 *Passive and Active Measurement* Arvind Krishnamurthy, Bernhard Plattner, 2010-04-01

The 2010 edition of the Passive and Active Measurement Conference was the 11th of a series of successful events. Since 2000 the Passive and Active Measurement PAM conference has provided a forum for presenting and discussing innovative and early work in the area of Internet measurements. PAM has a tradition of being a workshop like conference with lively discussion and active participation from all attendees. This event focuses on research and practical applications of network measurement and analysis techniques. This year's conference was held at ETH Zurich, Switzerland. PAM 2010 attracted 79 submissions. Each paper was carefully reviewed by at least three members of the Technical Program Committee. The reviewing process led to the acceptance of 23 papers. The papers were arranged in nine sessions covering the following areas: routing, transport protocols, mobile devices, topology, measurement infrastructure, characterizing network usage, analysis techniques, traffic analysis, and the Web. We are very grateful to Endace Ltd, New Zealand, Cisco Systems Inc, USA, Armisuisse, Switzerland, and the COST Action TMA whose sponsoring allowed us to keep registration costs low and to offer several travel grants to PhD students. We are also grateful to ETH Zurich for sponsoring PAM as a host.

Developing Software for Symbian OS Steve Babin, 2008-02-28. Many problems encountered by engineers developing code for specialized Symbian subsystems boil down to a lack of understanding of the core Symbian programming concepts. *Developing Software for Symbian OS* remedies this problem as it provides a comprehensive coverage of all the key concepts. Numerous examples and descriptions are also included which focus on the concepts the author has seen developers struggle with the most. The book covers development ranging from low level system programming to end user GUI applications. It also covers the development and packaging tools as well as providing some detailed reference and examples for key APIs. The new edition includes a completely new chapter on platform security. The overall goal of the book is to provide introductory coverage of Symbian OS v9 and help developers with little or no knowledge of Symbian OS to develop as quickly as possible. There are few people with long Symbian development experience compared to demand due to the rapid growth of Symbian in recent years and developing software for new generation wireless devices requires knowledge and experience of OS concepts. This book will use many comparisons between Symbian OS and other OSes to help in that transition. Get yourself ahead with the perfect introduction to developing software for Symbian OS.

Smartphone Operating System Concepts with Symbian OS Michael J. Jipping, 2007-04-30. *Smartphone Operating System Concepts with Symbian OS* uses Symbian OS as a vehicle to discuss operating system concepts as they are applied to mobile operating systems. It is this focus that makes this tutorial guide both invaluable and extremely relevant for today's student. In addition to presenting and discussing operating system concepts, this book also includes exercises that compare and contrast Symbian OS, Unix, Linux, and Microsoft Windows. These assignments can be worked on in a classroom laboratory or in a student's own time. The book is replete with examples, both conceptual and

applied to handhelds as well as Summaries at the end of each chapter Problems the students can do as homework Experiment oriented exercises and questions for students to complete on a handheld device A reading list bibliography and a list of sources for handheld software It also contains a series of on line laboratories based on the software developed for Symbian OS devices Students can perform these labs anywhere and can use printing and e mail facilities to construct lab write ups and hand in assignments Students for the first time will be taught Symbian OS concepts so that they can start developing smartphone applications and become part of the mass market revolution The Global Business Handbook Mark J. Hooper, 2016-03-09 A nation s economic success depends on the capacity of its companies and trading organizations to develop business relationships trade and do business in the international arena Doing business across borders subtly changes the processes and skills the successful manager needs Cultural social geographic and legal factors serve to complicate the picture The mantra for managers today is think global act local In this handbook the authors concentrate on the big developments that currently are happening at an international level They consider how managers operating in the global business landscape must change what they do to create advantages and remain competitive The Global Business Handbook is based on the structure of the very successful I SEG International School of Management s programme on international management It includes a global focus backed by the latest research on different aspects of international business carried out in different parts of the world *HWM*, 2007-11 Singapore s leading tech magazine gives its readers the power to decide with its informative articles and in depth reviews *Handbook of Research on Innovations in Systems and Software Engineering* Díaz, Vicente García, Lovelle, Juan Manuel Cueva, García-Bustelo, B. Cristina Pelayo, 2014-08-31 Professionals in the interdisciplinary field of computer science focus on the design operation and maintenance of computational systems and software Methodologies and tools of engineering are utilized alongside the technological advancements of computer applications to develop efficient and precise databases of information The Handbook of Research on Innovations in Systems and Software Engineering combines relevant research from all facets of computer programming to provide a comprehensive look at the challenges and changes in the field With information spanning topics such as design models cloud computing and security this handbook is an essential reference source for academicians researchers practitioners and students interested in the development and design of improved and effective technologies *Behind the Screen* Ari Hakkarainen, 2010-09-10 Behind the Screen unveils Nokia s phenomenal success story through people business initiatives and products The book explores key moments key technologies and key managers who contributed to the company s growth to become the world s favorite mobile phone brand In the 1990s Nokia outrivaled the traditional telecommunications companies Motorola and Ericsson by introducing innovative products that allowed personalization and gaming and by exploiting new technologies which created businesses that didn t exist before such as ringtones Once the dot com bubble had burst and 3G licence bidding had driven the industry into a downturn Nokia faced new competition Microsoft challenged Nokia in software and

Samsung and LG in hardware Yet Nokia was thriving as the competition heated up It wasn't enough because the biggest disruption in mobile communications was yet to come the Internet After Apple introduced the iPhone Google gave away an open source operating system for smartphones and Skype generated revenues from a free telephone service it wasn't enough for Nokia just to crank out products for the vast Indian market or tailor phones for AT T or Vodafone The industry had changed irrevocably Whereas people in established markets wanted to access their favorite social networking services like Facebook or Twitter using a mobile device people in emerging markets needed their first e mail accounts That's where Nokia's strategic Internet service Ovi came in Behind the Screen unfolds the stories of businesses and technologies that Nokia created and turned into global successes or into miserable failures It might be impossible to replicate Nokia's success but the stories offer valuable nuggets on how to thrive in global markets

Cryptology and Network Security Juan A.

Garay, Atsuko Miyaji, Akira Otsuka, 2009-11-24 The 8th International Conference on Cryptology and Network Security CANS 2009 was held at the Ishikawa Prefectural Museum of Art in Kanazawa Japan during December 12-14 2009 The conference was jointly co-organized by the National Institute of Advanced Industrial Science and Technology AIST Japan and the Japan Advanced Institute of Science and Technology JAIST In addition the event was supported by the Special Interest Group on Computer Security CSEC IPSJ Japan the Japan Technical Group on Information Security ISEC IEICE the Japan Technical Committee on Information and Communication System Security ICSS IEICE and the Society of Information Theory and its Applications SITA Japan and co-sponsored by the National Institute of Information and Communications Technology Japan ComWorth Co Ltd Japan Hitachi Ltd Hokuriku Telecommunication Network Co Inc and Internet Initiative Japan Inc The conference received 109 submissions from 24 countries out of which 32 were accepted for publication in these proceedings At least three Program Committee PC members reviewed each submitted paper while submissions co-authored by a PC member were submitted to the more stringent evaluation of five PC members In addition to the PC members many external reviewers joined the review process in their particular areas of expertise We were fortunate to have this energetic team of experts and are deeply grateful to all of them for their hard work which included a very active discussion phase almost as long as the initial individual reviewing period The paper submission review and discussion processes were effectively and efficiently made possible by the Web-based system iChair
