Textual Situations Andrew Taylor,2015-08-31 Generations of scholars have meditated upon the literary devices and cultural meanings of The Song of Roland But according to Andrew Taylor not enough attention has been given to the physical context of the manuscript itself The original copy of The Song of Roland is actually bound with a Latin translation of the Timaeus Textual Situations looks at this bound volume along with two other similarly bound medieval volumes to explore the manuscripts and marginalia that have been cast into shadow by the fame of adjacent texts some of the most read medieval works In addition to the bound volume that contains The Song of Roland Taylor examines the volume that binds the well known poem Sumer is icumen in with the Lais of Marie de France and a volume containing the legal Decretals of Gregory IX with marginal illustrations of wayfaring life decorating its borders Approaching the manuscript as artifact Textual Situations suggests that medieval texts must be examined in terms of their material support that is literal interpretation must take into consideration the physical manuscript itself in addition to the social conventions that surround its compilation Taylor reconstructs the circumstances of the creation of these medieval bound volumes the settings in which

they were read inscribed and shared and the social and intellectual conventions surrounding them

The Robust City Tony Hall,2015-04-10 Cities expand upwards and outwards and their physical structure can last a very long time not just tens but hundreds of years Nevertheless they are rarely designed for expansion Their layout does not allow for extension or for the retrofitting of infrastructure and can constrain and often prevent the growth and change of activities within them cities are not robust in their design In other words change is not planned for but involves costly reconstruction The Robust City argues that a robust expandable and sustainable urban form can be deduced from planning goals Development should not just follow public transport corridors but should not be allowed beyond walking distance from them This would create green enclaves that would permit not only recreational access but also the retrofitting of infrastructure and the efficient circulation of motor vehicles The same principles could also be applied within neighbourhoods and to facilitate the rational handling of urban intensification

Appearance Politics Lex Lu,2024-11-15 In Appearance Politics Lex Lu argues that crafting an appealing and powerful outward image has long been a critical political tool in China This strategy is evident in historical records imperial portraits physiognomic assessments photographs posters statues and digital images Using rare archival materials from Beijing Shanghai and Nanjing Lu explores how political figures designed their images and examines the shifting standards of male beauty that shaped their choices The book analyzes five case studies Ming Prince Zhu Di s usurpation the rise of Manchu masculinity and blended Han Manchu beauty standards under Emperor Yongzheng modern photography and Western beauty ideals in the early 20th century Sun Yat sen s crafted image as the Republican founding father and Mao Zedong s iconic visual legacy Through this empirical nuanced study Appearance Politics challenges stereotypical portrayals of Chinese male leadership in Western media and scholarship offering a richer understanding of appearance as a deliberate political strategy

Quimby and Latrim Barbara A. Cook,2003-06-11 This book contains channeled information from Quimby and Latrim They began sharing this information in 1998 For six months Quimby was the only speaker Then Latrim began speaking for short periods of time When asked they described themselves as entities from other dimensions outside the three dimensional physical reality They answer questions on many topics and give information to help us expand ourselves so we can live in a continuous state of unconditional love peace and harmony They describe everything from an energy point of view This is the first of three books channeled through Barbara as the sharings continue Public Urban Space, Gender and Segregation Reza Arjmand,2016-09-13 Public spaces are the renditions of the power symmetry within the social setting it resides in and is both controlling and confining of power In an ideologically laden context urban design encompasses values and meanings and is utilized as a means to construct the identity and perpetuate visible and invisible boundaries Hence gendered spatial dichotomy based on a biological division of sexes is often employed systematically to evade the transgression of women into the public spaces The production of modern urban space in the Middle East is formed in the interplay between modernity tradition and religion Examining women in public spaces and patterns of interaction with gender segregated and mixed space this book argues that gendered spaces are far from a static physical spatial division and produce a complex and dynamic dichotomy of men public and women private Taking the example of Iran normative and ideologically laden gender segregated public spaces have been used as a tool for the Islamization of everyday life The most recent government effort includes women only parks purportedly designed and administered through women s contributions as well as to accommodate their needs and provide space for social interaction and activities Combining research approaches from urban planning and social sciences this book analyses both technical and social aspects of women only parks Addressing the relationships between ideology urban planning and gender the book interprets power relations and how they are used to define and plan public and semi public urban spaces Lack of communication across disciplinary boundaries as result of complexities of urban life has been one of the major hindrances in studying urban spaces in the Middle East Addressing the concern the cross disciplinary approach employed in this volume is an amalgamation of methods informed by urban planning and social sciences which includes an in depth analysis of the morphological perceptual social visual functional and temporal dimensions of the public space the women only parks in Iran Based on critical ethnography this volume uses a

phenomenological approach to understating women in gendered spaces Interaction of women in women only parks in Iran a gendered space which is growing in popularity across the Muslim world is discussed thoroughly and compared vis vis gender neutral public spaces The book targets scholars and students within a wide range of academic disciplines including urban studies urban planning gender studies political science Middle Eastern studies cultural studies urban anthropology urban sociology Iranian studies and Islamic studies Dogma's Primrose Path John L. Martinez,2015-02-03 Dogma s Primrose Path addresses how the perpetual presence of ignorance poverty and war throughout the world is accepted by most people as an inevitable consequence of human life given man s incurably evil greedy and violent nature John L Martinez argues that this almost universal acceptance is itself a dogmatically learned and programmed condition This book suggests that human beings need to discard their dogmatic straightjackets and begin to thrive upon reason logic perception and experience in order to live together fruitfully and peaceably Cataloging Nonbook Materials Carolyn O.
