Event Studies Donald Getz, Stephen J. Page, 2019-10-30 Event Studies is the only book devoted to developing knowledge and theory about planned events. It focuses on event planning and management, outcomes, the experience of events, and the meanings attached to them, the dynamic processes shaping events, and why people attend them. This title draws from a large number of foundation disciplines and closely related professional fields to foster interdisciplinary theory focused on planned events. This revised edition has been updated to reflect and examine a number of substantial and important new ideas. New to the fourth edition: new sections on the evolution of design theory, management planning, and marketing theory applied to events; sensory stimulation; leadership and the nature of crises and security issues; new content on critical event studies and what this means for research and practice; the life cycle model for event programming; and an action plan for how events can be a positive force in sustainable cities. New and additional case studies from a wide range of international events and reviews of the evolving theory of contemporary research in events studies are included throughout. This will be an invaluable resource for all undergraduate students of events studies throughout their degree programmes.

The Doors You Can Open

Rosalind Chow, 2025-04-08 Chow revolutionizes our understanding of how careers advance. Daniel H. Pink, 1 New York Times best-selling author of *Drive*, taking readers on a transformative journey beyond the standard model of mentorship to embracing sponsorship. The way we currently network and engage in mentorship isn't working. Given the ever-evolving nature of the workplace, transactional networking and company-enforced mentorship programs simply don't help make our professional relationships more authentic or our workplaces more equitable. What we need instead is sponsorship. What's the difference between mentorship and sponsorship? Mentorship involves helping a mentee change their behavior, while sponsorship involves changing how other people see a protégé. Sponsorship is as important, if not more so, than mentorship in determining who gets ahead, making it a more effective way to promote social equality and inclusion in the workplace. In *The Doors You Can Open*, organizational expert Rosalind Chow shows readers that they likely already engage in sponsorship in their personal and professional networks and how they can channel those skills to build more authentic professional relationships. We all have more agency and deeper networks to act as sponsors than we might think, and sponsoring others can lead to mutually beneficial, lifelong connections rather than merely transactional interactions. Given the ever-evolving nature of the workplace, intentional and equitable sponsorship is more important now than ever for overturning traditional social hierarchies. Based on decades of original research, *The Doors You Can Open* makes a bold case for completely changing the way we network. Reading it will change how we see and use our relationships in the service of creating stronger workplaces for all.

Race, Representation, and Satire Christopher P. Campbell, 2023-12-06 *Race Representation and Satire* examines the role of humor, sarcasm, and parody in providing audiences with insight into race and racism in contemporary media through an analysis of representations of race and ethnicity in texts, online content, television shows, and comedy.

routines Contributors argue that while many minoritized groups continue to be targeted by stereotypes and myths that have lingered for centuries satire and comedy can be powerful tools for reversing harmful narratives and generating accurate authentic and inclusive representations Scholars of media studies popular culture rhetoric and race will find this book particularly useful

Improving the Performance of Sponsorship Ardi Kolah, 2015-06-12 Without a doubt sponsorship is one of the most powerful promotional tools we have in the business of brand creation brand recognition and ultimately increasing sales Moreover brokering sponsors is a significant business in and of itself something we often overlook Considering sponsorship is a 50 billion a year market and growing marketers and students of business ignore its potential at the risk of missing hugely lucrative opportunities To fail to understand sponsorship is to fail to understand marketing If you are looking for an introduction to this topic most books available only address sports sponsorship the largest section of the market perhaps but by no means the only one Kolah's *Improving the Performance of Sponsorship* is a guide that examines all types of sponsorship clearly explaining and defining its mechanics advising on how to select the right properties how to sell sponsorship ethical issues measurement and key legal principles This book is all keen marketers will need for a thorough understanding of how sponsorship works

The Somatechnics of Whiteness and Race Elaine Marie Carbonell Laforteza, 2016-03-09 Investigating the emergence of a specific mestiza mestizo whiteness that facilitates relations between the Philippines and Western nations this book examines the ways in which the construction of a particular form of Philippine whiteness serves to deploy positions of exclusion privilege and solidarity Through Filipino Filipino Australian and Filipino American experiences the author explores the operation of whiteness showing how a mixed race identity becomes the means through which racialised privileges authority and power are embodied in the Philippine context and examines the ways in which colonial and imperial technologies of the past frame contemporary practices such as skin bleaching the use of different languages discourses of bilateral relations secularism development and the movement of Filipino Australian and American bodies between and within nations Drawing on key ideas expressed in critical race and whiteness studies together with the theoretical concepts of somatechnics biopolitics and governmentality *The Somatechnics of Whiteness and Race* sheds light on the impact of colonial and imperial histories on contemporary international relations and calls for a queering or resignification of whiteness which acknowledges permutations of whiteness fostered within national boundaries as well as through various nation state alliances and fractures As such it will appeal to scholars of cultural studies sociology and politics with interests in whiteness postcolonialism and race

Queer Cinema in the World Karl Schoonover, Rosalind Galt, 2016-11-17 Proposing a radical vision of cinema's queer globalism Karl Schoonover and Rosalind Galt explore how queer filmmaking intersects with international sexual cultures geopolitics and aesthetics to disrupt dominant modes of world making Whether in its exploration of queer cinematic temporality the paradox

of the queer popular or the deviant ecologies of the queer pastoral Schoonover and Galt reimagine the scope of queer film studies The authors move beyond the gay art cinema canon to consider a broad range of films from Chinese lesbian drama and Swedish genderqueer documentary to Bangladeshi melodrama and Bolivian activist video Schoonover and Galt make a case for the centrality of queerness in cinema and trace how queer cinema circulates around the globe institutionally via film festivals online consumption and human rights campaigns but also affectively in the production of a queer sensorium In this account cinema creates a uniquely potent mode of queer worldliness one that disrupts normative ways of being in the world and forges revised modes of belonging

Jacqueline H. Watts,2016-03-09 Health status and the experience of working in health care roles are both strongly shaped by gender and although there have been attempts to incorporate gender awareness in both health and employment policies the significance of gender in these areas continues to be marginalised within public debates and academic discourses Taking a social constructionist perspective Watts considers the ways in which gender impacts upon health in all its elements including access technology professionalisation health promotion and health as an important sector of the labour market She discusses gender as a developing and diversified category exploring ideas about masculinity and the fluidity of gender boundaries in determining individual identity Chapters that follow discuss men s and women s health ideology of gender and health specifically exploring different social norms and ideas about male and female health and the dominant ideological association between femaleness and caring working for health with particular focus on the gendered interplay of caring and curing roles technology and changes to gender health and healthcare health promotion as a gendered activity and finally the importance of introducing an intersectional approach beyond gender to articulate a deeper understanding of health in a postmodern context The concluding chapter draws together these themes to underscore the importance of placing gender at the centre of health and health care delivery to fully take account of both the different life and health experiences of men and women and the gendered dimensions of working in health care **Run for Your Life** Mark Cucuzzella, MD,2018-09-18 A

Financial Capability and Asset Holding in Later Life Nancy Morrow-Howell,Margaret

Sherraden, 2014-12-29 With today's availability of Social Security and Medicare we typically think of the older years as a stage in life where people are supported financially. However, of the more than 40 million old adults currently living in the US many are struggling financially, living below or near the poverty line. They are lacking the assets necessary to see them through a period of life that is often longer than expected and that requires more health and long-term care. While financial vulnerability can be most pronounced in old age, it is often created across decades, revealing itself in later years when there is little opportunity to reverse a lifetime of disadvantage. The concept of Financial Capability refers to both an individual and structural idea that combines a person's ability to act with their opportunity to act in their best financial interests. In *Financial Capability and Asset Holding in Later Life: A Life Course Perspective*, the concept of Financial Capability is used to underscore the importance of acquiring knowledge and skills while addressing policies and services that can build financial security. The volume assembles the latest evidence on financial capability and assets among older adults using a life course perspective, arguing that older adults need financial knowledge and financial services in order to build secure lives and that this process needs to begin before it is too late to make effective changes and choices. Broken into three parts, the book's chapters, written by leading experts in the field, blend together empirical findings, economic and social theory, and case studies. Part 1 opens the book with a conceptual and empirical overview of financial capability and assets among older adults using a life course perspective. Part 2 presents chapters addressing financial vulnerability of diverse racial and ethnic groups, people with disabilities, and immigrants. Part 3 includes chapters describing current policies, programs, and innovations, including a review of important issues of working and caregiving in later life and a detailed assessment of age-friendly banking principles, banking products, services, and policies.
