A Sample Qualitative Research Proposal Written in the APA 6th Style

Flow: This sample proposal is based on a composite of past proposals, statistical information, and references, and material I've collected for themselves purposes. It is based roughly on fairly standard research proposal I've taught because there is no one set way of doing qualitative research proposal. Much of its design is based on the nature of the research, your preferences, and your decisions about how to structure a writing, what it is you plan to accomplish. The material in this document was adapted primarily from a dissertation proposal created by Dr. Nancy Matthews. A template is not included in this sample proposal. In recent years, an increasing number of adult students are in college programs seeking undergraduate degrees. Many more of the year formerly accepted by the institution. Indeed, the number of full-time adult students is still quite small, particularly at four-year colleges and universities. It includes the increased unemployment figures, as well as the declining job opportunities available in many regions of the country, have affected the number.

In addition to the loss of a job and the possible need for additional education to obtain new skills, other factors are present:

- the decision to enter the job market and the need for "break up" or divorce are able
- early retirement and the decision to retire in earlier years
- a change in work-life balance (family, individually related needs in a career because and the corresponding need for additional education
- increased responsibility for adults particularly women to raise a child (ages, 1995)

Report in the literature and universities with many adult students confirm that colleges and universities will have an early need to come with these older learners. Although some universities have added special counseling and assistance programs, many have closed special career advisors and advisors, other responses have been less highly organized. Since the full-time adult undergraduate has been considered as a new phenomenon, the statistics have been collected as part-time students. Therefore, almost none of the support services and research
