SCATTER PLOTS & ASSOCIATIONS

Label the graphs to the right as linear, non-linear, positive, or negative, and write a description about the association appeared in the graph.

Dim Linear
Negative
As the number of likes increases, the number of followers decreases.

The graph shows the relationship between the weight in pounds and the number of people at several Thanksgiving dinners. Based on the scatterplot, make a prediction of the pounds of turkey eaten when there are 50 people at a meal.

Linear
Positive
The older you are, the more eggs you collect.

The graph shows the relationship between the number pennies left for sale at several gardens on different days during the month of December. If a garden has 10 pennies left for sale, about what day in December is it?

MAKING PREDICTIONS WITH SCATTER PLOTS

Draw a TREND LINE!

The graph shows the relationship between the weight in pounds and the number of people at several Thanksgiving dinners. Based on the scatterplot, make a prediction of the pounds of turkey eaten when there are 50 people at a meal.

About 15 pounds

The graph shows the relationship between the number pennies left for sale at several gardens on different days during the month of December. If a garden has 10 pennies left for sale, about what day in December is it?

About 26th

MEAN ABSOLUTE DEVIATION

The table shows the number of fireworks the people purchased for their 4th of July fireworks show. What is the mean absolute deviation of the data set?

Mean: 66

4th of July
Fireworks Purchased

Name	Number of Fireworks
Sam	80
Tasha	55

Students of Color and the Achievement Gap Richard R. Valencia, 2015-03-05 Students of Color and the Achievement Gap is a comprehensive landmark analysis of an incontrovertible racialized reality in U S K 12 public education the relentless achievement gap between low socioeconomic

students of color and their economically advantaged White counterparts Award winning author and scholar Richard Valencia provides an authoritative and systemic treatment of the achievement gap focusing on Black and Latino Latina students He examines the societal and educational factors that help to create and maintain the achievement gap by drawing from critical race theory an asset based perspective and a systemic inequality approach By showing how racialized opportunity structures in society and schools ultimately result in racialized patterns of academic achievement in schools Valencia shows how the various indicators of the achievement gap are actually symptoms of the societal and school quality gaps Following each of these concerns Valencia provides a number of reform suggestions that can lead to systemic transformations of K 12 education

Students of Color and the Achievement Gap makes a persuasive and well documented case that school success for students of color and the empowerment of their parents can only be fully understood and realized when contextualized within broader political economic and cultural frameworks
