

You and Fiesta - A Command Performance

Without question, this is a driver's car. Fiesta's compact instrument cluster, which is futuristic, fully suspended in front of the driver, includes a temperature gauge and voltmeter, as well as an electronic speedometer and tachometer. Warning lights tell of how a near-compartmented left or right side. Controls are located within easy reach - even the front compartment lid and fuel filler door are released from the driver's seat.

For long driving, Fiesta is without creature comforts. From seats that cradle and support four after four, to an optional fingertip-controlled climate, to an available stereo sound system that includes two high fidelity speakers. In each headrest, Fiesta's interior is a delightful environment from which to control the surrounding machinery.

And the machinery begs to be controlled. As directional commands are transmitted to the road through rack and pinion steering, Fiesta follows through with a minimum of body roll. Even in the tightest turns, its flat attitude never seems to change.

Fiesta's fuel-injected power gives you a feeling of competence and control - competence which is well matched by its braking performance. Thanks to power-assisted, discs at all four wheels. In all, the driving experience is reassuring, while providing a high level of enjoyment.

In summary, one could say that Fiesta is a product of performance-oriented engineering and skilled workmanship. But it is also a state of mind. Enjoy it - you have a right to be proud.
