Smart on Crime Garrick L. Percival, 2015-07-28 The most punitive era in American history reached its apex in the 1990s but the trend has reversed in recent years Smart on Crime The Struggle to Build a Better American Penal System examines the factors causing this dramatic turnaround It relates and echoes the increasing need and desire on the part of actors in the American government system to construct a penal system that is more rational and humane Author Garrick L Percival points out that the prison boom did not naturally emerge as a governmental response to increasing crime rates Instead political forces actively built and shaped the growth of a more aggressive and populated penal system He is optimistic that the shifting political forces surrounding crime and punishment can now reform the system explaining how current political actors can craft more constructive and just policies and programs The book shows how rationality and humanitarianism lead to a penal system that imprisons fewer people does less harm to the lives of individual offenders and those close to them and is less expensive to maintain The book presents empirical data to concretely demonstrate what is working and what is not in

today's penal system. It closely examines policies and practices in Texas, Ohio, and California as comparative illustrations on what progress has been made or needs to be made in penal systems across the United States. The book includes a comprehensive discussion of highlighted issues and relates more than two dozen interviews with pivotal political actors who clarify why there is a major shift underway in the American penal system. Their insights reveal paths that can be taken to improve the current penal system.

**Post Pandemic Facilitation of Air Transport** Ruwantissa Abeyratne, 2022-06-27

From early 2020 for a period of two years at the end of which this book was written, air transport suffered unprecedented setbacks due to the COVID-19 pandemic. Although the pandemic may eventually fizzle out into another flu-like occurrence, the restraint with which air transport services were offered would remain with us for a while, with some practices being sustained, particularly those pertaining to public health. One of the main areas of air transport that was and will be affected significantly by the changed circumstances is facilitation, a subject that is regulated by the Chicago Convention of 1944 and its Annex 9. This book looks in depth at the Annex as it will be applied in a post-pandemic world against its legal, socio-political, and economic impacts, addressing the Standards of the Annex on clearance of aircraft entry and departure of passengers and the carriage of cargo. It also discusses some critical aviation events in 2020 and 2021 that occurred as they relate to facilitation of air transport. Some of the key areas discussed are the role of ICAO issues of public health as they relate to air transport, security of travel documents, smuggling of persons, digital technology, and rights of the passenger, unruly passengers, carriage of disabled passengers, relief flights, and repatriation flights, and facilities at airports.

**Saturday Review of Literature**, 1944 Yearbook of International Humanitarian Law, Volume 21 (2018) Terry D.

Gill, Robin Geiß, Heike Krieger, Christophe Paulussen, 2019-10-31. The main theme of this volume of the Yearbook of International Humanitarian Law is weapons law. In several chapters, how International Humanitarian Law (IHL) copes with old and new weapons as well as political developments in regard to military technology is discussed, while in two chapters, the significance of non or less lethal weapons in peacekeeping and law enforcement operations as well as the legality of lethal autonomous weapon systems under IHL are analysed. Moreover, the volume describes the current status of nuclear deterrence under international law. Another layer is added by examining how IHL influences the programming of automatic target recognition systems using artificial intelligence. The second part of the book contains a historic perspective on the roots of IHL in Europe, which can be traced back to the ninth century as well as a Year in Review describing the most important events and legal developments in the area of IHL that took place in 2018. The Yearbook of International Humanitarian Law is the world's only annual publication devoted to the study of the laws governing armed conflict. It provides a truly international forum for high-quality peer-reviewed academic articles focusing on this crucial branch of international law. Distinguished by contemporary relevance, the Yearbook of International Humanitarian Law bridges the gap between theory and practice and serves as a useful reference tool for scholars, practitioners, military personnel, and civil servants.
