Urban Education Karen Symms Gallagher, Rodney Goodyear, Dominic Brewer, Robert Rueda, 2013-03-19 Many factors complicate the education of urban students Among them have been issues related to population density racial ethnic cultural and linguistic diversity poverty racism individual and institutional and funding levels Although urban educators have been addressing these issues for decades placing them under the umbrella of urban education and treating

them as a specific area of practice and inquiry is relatively recent Despite the wide adoption of the term a consensus about its meaning exists at only the broadest of levels In short urban education remains an ill defined concept This comprehensive volume addresses this definitional challenge and provides a 3 part conceptual model in which the achievement of equity for all regardless of race gender or ethnicity is an ideal that is central to urban education The model also posits that effective urban education requires attention to the three central issues that confronts all education systems a accountability of individuals and the institutions in which they work b leadership which occurs in multiple ways and at multiple levels and c learning which is the raison d tre of education Just as a three legged stool would fall if any one leg were weak or missing each of these areas is essential to effective urban education and affects the others **Report Cards** Wade H.

Morris,2023-09-26 The definitive history of the report card Report cards represent more than just an account of academic standing and attendance The report card also serves as a tool of control and as a microcosm for the shifting power dynamics among teachers parents school administrators and students In **Report Cards A Cultural History** Wade H Morris tells the story of American education by examining the history of this unique element of student life In the nearly two hundred year evolution of the report card this relic of academic bookkeeping reflected broader trends in the United States the republican zealotry and religious fervor of the antebellum period the failed promises of postwar Reconstruction for the formerly enslaved the changing gender roles in newly urbanized cities the overreach of the Progressive child saving movement in the early twentieth century and by the 1930s the increasing faith in an academic meritocracy The use of report cards expanded with the growth of school bureaucracies becoming a tool through which administrators could surveil both student activity and teachers And by the late twentieth century even the most radical critics of numerical reporting of children have had to compromise their ideals Morris traces the evolution of how teachers students parents and administrators have historically responded to report cards From a western New York classroom teacher in the 1830s and a Georgia student in the 1870s who was born enslaved to a Colorado student incarcerated in the early 1900s and the son of Russian Jewish immigrants applying to college in the 1930s **Report Cards** describes how generations of people have struggled to maintain dignity within a system that reduces children to numbers on slips of paper **Teaching to Change the World** Jeannie Oakes,Martin Lipton,Lauren
