[An Introductory Guide to EC Competition Law and Practice](#) Valentine Korah, 1994

Gambling for Winners Ward Wilson, This book is for you only if you gamble to make money If your idea of fun and entertainment includes giving away your hard earned money to casinos I

can't help you. If you enjoy sitting in a mindless bright lights dinging trance while you drop quarters down a slot, this book is not for you. If you think casinos are built and run by stupid people, you better stay out of them. If you think you can beat a blackjack dealer by wild assed guessing, think again. If you play poker just because it's now so popular, you don't need my book. If you believe you can just happen to be lucky enough to beat the odds, you live in a fantasy world and you'd hate this book for destroying your illusions. But if you're hard-headed, serious, willing to work and tired of the mainstream gambling books that simply teach you how to lose less rather than win, if you understand casinos don't stay in business by giving out more money than they take in, this is an extensive examination of the most popular forms of gambling. If you can find any positive expectation bets and how. Some of the material is controversial. Some of it is unique. It's not for beginners. If you don't already know how to play blackjack or craps, buy and read the basic books first. This one assumes you know and understand the rules of play. If you have emotional or psychological issues around money, my strong advice is don't gamble. If you want to believe casinos are playgrounds built for your amusement, this is not the book for you. I use statistical concepts and common sense to strip away the bright lights and glamor to reveal the mathematical realities of gambling. For the most part, it's not pretty. Not if you want to make money instead of lose it. But there are opportunities there for people willing to work hard and understand the obstacles so they can surmount them. If you're still an emotional child needing the adrenaline rush and excitement of winning money, this is not for you. And not only the casinos want to take your money; hordes of online scammers selling bogus systems online also are after the money belonging to would-be pro gamblers. Until you can enter a casino and remain blind to the red carpeting, the flashing lights, dinging slots, and the entire aura of glamorous partying, you'll remain a loser. If you have enough money to pay for a mirage that's up to you. Most people don't.
