Reviewing Reality W. E. A. van Beek, Philip M. Peek, 2013 From crab divination in the Cameroon to friction oracles in the Congo Basin from reading cast objects in Mozambique to spirit possession in Cote d Ivoire from Sudanese ebony diviners to South African Xhosa healers divination systems throughout Africa serve their communities by answering questions and resolving problems Divination helps people chart a course in their lives through a deeper understanding of past and present This important book reveals the extraordinary diversity and complexity of African divination systems focusing on self knowledge social reality and intercultural and historical relations Series African Studies Afrikanische Studien Vol 50 *The Advocate of Peace* , 1912 **Earthquakes in Human History** Jelle Zeilinga de Boer, Donald Theodore Sanders, 2021-08-10 On November 1 1755 All Saints Day a massive earthquake struck Europe s Iberian Peninsula and destroyed the city of Lisbon Churches collapsed upon thousands of worshippers celebrating the holy day Earthquakes in Human History tells the story of that calamity and other epic earthquakes The authors Jelle Zeilinga de Boer and Donald Theodore Sanders recapture the power of their previous book Volcanoes in Human History They vividly explain the geological processes responsible for earthquakes and they describe how these events have had long lasting aftereffects on human societies and cultures Their accounts are enlivened with quotations from contemporary literature and from later reports In the chaos following the Lisbon quake government and church leaders vied for control The Marqu s de Pombal rose to power and became a virtual dictator As a result the Roman Catholic Jesuit Order lost much of its influence in Portugal Voltaire wrote his satirical work *Candide* to

refute the philosophy of optimism the belief that God had created a perfect world And the 1755 earthquake sparked the search for a scientific understanding of natural disasters Ranging from an examination of temblors mentioned in the Bible to a richly detailed account of the 1906 catastrophe in San Francisco to Japan s Great Kanto Earthquake of 1923 to the Peruvian earthquake in 1970 the Western Hemisphere s greatest natural disaster this book is an unequaled testament to a natural phenomenon that can be not only terrifying but also threatening to humankind s fragile existence always at risk because of destructive powers beyond our control **Advocate of Peace and Universal Brotherhood** ,1911 *Haunted Dakotas*
