Japanese anime to art installations and truth commission reports Susan McHugh analyzes source material from a variety of regions and cultures to highlight cases where traditional knowledge works in tandem with modern ways of thinking about human animal relations In contrast to success stories of such relationships the narratives McHugh highlights show the vulnerabilities of affective bonds as well as the kinds of loss shared when interspecific relationships are annihilated In this thoughtful critique McHugh explores the potential of these narratives to become a more powerful urgent strategy of resistance to the forces that work to dehumanize people eradicate animals and threaten biodiversity As we unevenly contribute to the sixth great extinction this timely compelling study sheds light on what constitutes an effective response from a humanities focused interdisciplinary perspective McHugh s work will appeal to scholars working at the crossroads of human animal studies literature and visual culture as well as artists and activists who are interested in the intersections of animal politics with genocide and indigeneity

Werrell, 2015-11-06 Includes over 90 illustrations Dr Kenneth Werrell s history of ground based air defense performs an important service both to scholarship and more important to the defense of our nation s freedom It is perhaps human nature that we tend over time to lose sight of the lessons of the past especially when they do not conform to certain cherished preconceptions of ours That such myopia can be dangerous if not downright disastrous Doctor Werrell s study richly illustrates Without sentimentalism he chronicles a pattern of lessons learned and too quickly forgotten as the marvel of air power was reminded again and again of its limitations and vulnerability In Korea and in Vietnam the American people were stripped of their illusions of national and technical omnipotence The unhappy outcome of those two conflicts were doubly lamentable because the lessons of World War II were or should have been fresh in our minds In that world war as Doctor Werrell shows relatively cheap ground based air defense did make a difference at Ploesti at Antwerp and at the Rhine bridges **The Report of the British and Foreign Bible Society** British and Foreign Bible Society, 1909 Vols 1 64 include extracts from correspondence **Looking Forward Through the Lifespan: Developmental Psychology** Candida C Peterson, 2013-12-17 When a local context really makes the difference The new edition of this original Australian text continues to offer the most balanced coverage of theory and research for Australian students and educators and appeals to students from many backgrounds It covers the domains of development including neurological cognitive social physical and personality The text is organised chronologically by chapter Within each chapter content is organised topically This structure allows for a degree of flexibility and lecturers can choose the way they wish to approach the content whether it is topically or chronologically *The Works of Shakespeare: The merry wives of Windsor* William Shakespeare, 1904 **The Century Dictionary**, 1890 Children's Surgery John G. Raffensperger, M.D., 2014-01-10 The history of medicine and surgery is well documented but this volume offers the first specific exploration of the treatment of and attitudes towards children with injuries and birth defects through the ages Popular thought holds that children in ancient times with birth defects faced a short life of abandonment or neglect Examination of written records from ancient Egypt India Greece and Islam however shows that physicians and surgeons have attempted to find remedies to cure ailing youths from the beginning of recorded medical history These essays document the origins of children s surgery chronicle the history of children s surgery into modern times and explore the treatment of the most common visceral birth defects With contributing authors offering perspectives from a variety of cultures this extraordinary collection will interest not only medical professionals but also historians and others in the child care field **Surgery, Gynecology & Obstetrics** Franklin Henry Martin, 1912
