Proven Solutions for Improving Supply Chain Performance C. Carl Pegels, 2005-06-01 Proven Solutions for Improving Supply Chain Performance is a collection of about 175 descriptions of scientific management studies in the management of supply chains Each one of the descriptions of the scientific studies is presented in readable and understandable form for individuals who probably have not had the statistical and scientific education and training to fully understand the underlying studies The book is significantly different from the popular management literature which is generally based on armchair theories that have little basis on fact and seldom have been scientifically verified Although the book is targeted for the supply chain manager administrator it can also be used as a supplementary reader in such courses as Operations Management Service

Systems Management Manufacturing Management Purchasing Management and of course in Supply Chain Management courses Innovative Solutions for Implementing Global Supply Chains in Emerging Markets Dwivedi, Ashish, 2016-01-28

Advancements in the field of information technology have transformed the way businesses interact with each other and their customers. Businesses now require customized products and services to reflect their constantly changing environment yet this results in cutting edge products with relatively short lifecycles. Innovative Solutions for Implementing Global Supply Chains in Emerging Markets addresses the roles of knowledge management and information technology within emerging markets. This forward thinking title explores the current trends in supply chain management knowledge acquisition and transfer mechanisms among supply chain partners and knowledge management paradigms. This book is an invaluable resource for researchers, business professionals and students, business analysts and marketing professionals. Economic Management And Transition Towards A Market Economy: An Asian Perspective Anthony Theng Heng Chin, Hock Guan Ng, 1996-10-04

Much attention has been focused in recent years on the transformation of the economies of Eastern and Central Europe and the former Soviet Union. However a growing demand for policy advice, technical assistance and expertise is also coming from Asian reforming countries such as China, Mongolia, Vietnam, Laos and Cambodia. In addition, business communities abroad are increasingly interested in exploring investment and marketing opportunities in these reforming countries. Such developments are too important to overlook or ignore. The transformation of socialist economies towards market based systems entails an unusually wide range of problems. Studies of related topics are complicated by the speed of the changes and the lack of clear historical precedents. Although the structural features of Asian reforming economies are in important ways different from those of the Eastern European economies, all socialist economies share similar fundamental conditions on the eve of economic reform which raise a similar set of reform issues. This volume brings together a rich collection of expertise and information in an attempt to shed some light on the transitional process in Asia. The contributions are by no means exhaustive. However they provide the reader and analyst with an excellent starting point to the problems and prospects which are specific to Asian transforming economies. Technological Solutions for Modern Logistics and Supply Chain Management Luo, Zongwei, 2013-01-31

Technological Solutions for Modern Logistics and Supply Chain Management highlights theories and technological growth in applied research as well as advances in logistics, supply chains and industry experiences. Aiming to enhance the expansions made towards an efficient and sustainable economy, this book is essential for providing researchers, practitioners and academicians with insight into a wide range of topics. *Compendium of Knowledge Solutions*, **Redesigning Asian Business** Frank-Jürgen Richter, 2002-03-30

With much of the Asian Miracle destroyed and much of the Western world's awe for Asian ways of management dissipated, organizations there are changing with such speed that most of our knowledge about them is quickly outdated. Richter takes stock of East Asian management practices as they are perceived so far and he discusses the strategies that others propose to help Asian

management redesign itself for the future including a long term agenda for change based on the cultural heritage of Confucianism He analyzes the cultural underpinnings of Asian management practices evaluates the influence of the Asian economic crisis on them and discusses their potential for guiding Asian firms to a sustainable competitive advantage He then provides examples of how Asian firms shape up their organizations and describes a short term agenda to fix the weaknesses in Asian management at least temporarily Throughout Richter avoids talk about strategic management as merely a theory he adopts a broader definition that includes a value system to guide East Asian firms as they re emerge and redevelop The result is a challenging intensely pragmatic analysis for decision makers at all levels in all countries and cultures and it is a new stone in the foundation of academic research and thought Richter opens with a discussion of the legacy of Confucianism and its impact on Asian management practices He then proposes three intrinsic characteristics of Asian management networks trust and collectivism He gives a history of the Asian economic crisis highlighting the failures of Asia s economic development and the flaws that appeared in its management practices The third section of the book evaluates management practices that have emerged since then and how they are perceived so far Then in the concluding section he presents a new perspective on Asian management short term goals fixing current management weaknesses and long term goals incorporating its long abiding strengths Throughout Richter draws on the management theory enunciated by Hofstede and includes examples and case studies of recent developments across the region and he also includes his own theories as well as those of others Mr Richter s book will be a welcome addition to the literature on business and the culture of Asia

Agribusiness, 1980's and 1990's Perspective Mary E. Lassanyi,1991 **Solution Focused Coaching in Asia** Debbie Hogan,Jane Tuomola,Sukanya Wignaraja,2024-08-02 Through inspiring stories illustrating the diverse application of coaching within Asian contexts this data rich volume dives into the theory and practice of Solution Focused coaching offering numerous tools and techniques that can be used immediately With the rising demand for coaching across Asia there is a need for coaches to have access to up to date practice based evidence of its effectiveness The Solution Focused approach as a social constructionist approach privileges the clients experience resources and preferred future over an analytic or deficit oriented stance Contributors analyse real case examples from many countries across Asia including Singapore Malaysia Indonesia China Taiwan Hong Kong Japan Cambodia and Sri Lanka Practical in its approach the book offers new insights into established areas of coaching and also highlights innovations in coaching in areas where Solution Focused coaching and other models have not reached until recently These areas include health and wellness coaching for medical compliance needs faith based coaching and coaching incarcerated fathers This is an essential and comprehensive resource that is written for both beginner and experienced coaches and addresses the need for effective and culturally sensitive coaching models in Asia It will also be beneficial for managers and health care professionals looking to enhance their work through coaching skills
