Operator Fitness Program And Manual Gym Jones:

The Combat Position Christopher Brennan, 2011 Firefighting is combat and should be viewed as a warrior's calling. Firefighters put themselves in harm's way to protect others; a selflessness rooted in the same noble drive as the military warriors who defend our nation. This book about combat is meant to be a guide for those who seek to follow a warrior's path: the path of the fire service warrior. Today's firefighter must be a warrior who will unflinchingly put his very life in harm's way to accomplish a mission but who is also fully informed about the path being chosen. Embracing the philosophy of the fire service warrior and striving for the ready position: the synthesis of physical and mental readiness that allows for optimum fireground performance can reduce firefighter injuries and fatalities. The Combat Position: Achieving Firefighter Readiness will be an invaluable tool for firefighters, company officers, chief officers, and instructors.
