artistic merits, little research has been done on postcards as historic and cultural artefacts. Behind this void lie many reasons. In part because of their very nature, the fact that they were popular and mass market rather than serious history. In part because they are disposable and they were cheap. They possess no status. As Arisa Yamaguchi writes in *Sartorial Japonisme and the Experience of Kimonos in Britain 1865-1914*, the fast and easy-to-send postcard was considered the letter of the poor because it was cheap. In part it is because they are rarely accompanied by a narrative. Most of the big collections hold pristine examples that are unspoiled with a written message. Hence, most postcards are little more than snapshots of scenes such as the countryside, towns, villages, events, portraits of celebrities and ordinary people, but rarely do they have background information added. Over the years, their subject matter has become increasingly opaque and their significance lost. And it has to be acknowledged, many postcards carry images that are banal and possess no inherent or obvious artistic or historic merit. Nor do we have much insight into what postcards actually meant to either the sender or the recipient and the role they played in people's lives. Yet during this Golden Age, whether in Japan, Britain, and many other countries, they became a critical part of telling and spreading the story of a nation. In some instances, they had an important role in disseminating propaganda, but most importantly, for a swathe of the population, they were an aide to communication when people were neither articulate nor literate. Let the postcard do the talking in a manner of speaking. This collection and analysis is very different, most critically, as the postcards enjoy the continuity of coming from one person sent frequently over three years. They were the equivalent of today's text and social media messaging and posts sent at a time that was pivotal in Japan's history. Each postcard is illustrated and described, while the first chapters look at Japan during the late Meiji era and the

introduction and early history of picture postcards Much has never been covered before so this will be of interest not only to Japan historians but also those interested in the evolution of the picture postcard and why they became so popular

Rereading Modernist Postcards Bradley D. Clissold, 2023-08-31 Informed by both new and old media theory materialist approaches to the study of everyday objects and a series of close readings that chart the critical history of postcard use in the fiction and correspondence of Ernest Hemingway Ring Lardner James Joyce and Wilfred Owen this book locates and attempts to rediscover lost misplaced and neglected postcard materialities as they relate to the archiving editing publishing and fictional repurposing of postcards across Anglo American Literary Modernism 1880 1939 It argues that postcards need to be recognized as important early twentieth century communication technologies and distinctly modernist textualities composed of multimedia recto verso intertextualities Moreover their material limitations encourage users to inscribe messages often in fragmented language forms and innovative cultural shorthands a k a postcardese This study redresses the ongoing widespread scholarly neglect of signifying postcard materialities in modernist studies and the editorial silencing of postcard features in collections of published author correspondence It also stresses that for these four literary figures of modernism the material choice of a postcard for communicating is always as much the meta message as any of the signifying materialities they carry uploaded onto their platforming surfaces *A Handbook to the Cases Illustrating Stages*
