100 Recipes America's Test Kitchen,2015-10-13 A provocative handpicked

collection of relevant and surprising essential recipes for today's cook. We have countless recipes at our disposal today but what are the real keepers, the ones that don't just feed us when we're hungry or impress our friends on Saturday night but inspire us to get into the kitchen. At the forefront of American cooking for more than 20 years, the editors at America's Test Kitchen have answered this question in an essential collection of recipes that you won't find anywhere else: **100 Recipes Everyone Should Know How to Make**. Organized into three recipe sections: Absolute Essentials, Surprising Essentials, and Global Essentials, each recipe is preceded by a thought-provoking essay that positions the dish. For example, "Treating Pasta Like Rice Simplifies Everything," "A Covered Pot Is a Surprisingly Good Place to Roast a Chicken," and "Reimagine Pie in a Skillet to Simplify the Process." You'll find useful workday recipes like a killer tomato sauce that's almost as easy as opening a jar of the store-bought stuff, genius techniques for producing amazing flavor (try poaching chicken breasts over a garlic and soy-spiked brine), trust us, it's that good, and familiar favorites reinvigorated (the best beef stew comes from Spain and it's even easier to make than the stateside stew you've been eating for years). Gorgeous photography shot right in the test kitchen accompanies every recipe, revealing the finished dish as well as highlights of its preparation. Likely to stir debate among anyone interested in food and cooking, **100 Recipes Everyone Should Know How to Make** provides a snapshot of how we cook today and will galvanize even the most jaded cook to get into the kitchen.

Whether you've just bought your first pressure cooker or you have left your old one languishing at the back of the cupboard for a while, Dianne Page will help you get the most out of this most useful piece of kitchen equipment. Pressure cooking cuts conventional cooking times to a third. Soups can be ready in minutes. Favourite recipes which traditionally take hours to prepare can be cooked and enjoyed at the end of a busy day. Plus, shorter cooking times mean lower gas and electricity bills. Other benefits include: Food retains its flavour, vitamins, minerals, and colour. Cheaper cuts of meat that are packed with flavour but normally need long slow cooking to make them tender can be cooked quickly. Less steam is produced so no condensation in the kitchen.
