Turkish-American Relations in the 21st Century Ozan Örmeci, Herbert R. Reginbogin, 2024-12-15 Turkish American relations have been considered a model partnership between a

great and middle power during the Cold War due to the positive nature of relations being advantageous to both sides While the United States took advantage of Turkey's geopolitical position and military strength against the USSR Turkey benefited from American economic power and military technology However with the end of the Cold War and the emergence of new regional and global developments a stable framework to clarify and shape Turkish American relations has not yet been crafted Additionally crises such as the non approval of the 1 March memorandum in 2003 to support the American war effort in Iraq and the 15 July 2016 coup attempt in Turkey further distanced these two historical allies To discuss these issues frankly and to provide some suggestions to improve the two countries relations in many different regions fields including Syria Iraq the Eastern Mediterranean the Caucasus the defense industry the energy sector and much more Turkish American Relations in the 21st Century aims to bring important experts on Turkish foreign policy and Turkish American relations together

The Pursuing God Joshua Ryan Butler, 2016-05-03 Is God lost Many of us feel that way It's as if God's gone missing out in the universe somewhere and we must pick up the hunt following any trail of breadcrumbs he may have left to go out and find him We speak of searching for God exploring spirituality and finding faith But what if we have it backward What if God is the one pursuing us What if our job is not to go out and find God but simply to stop running and hiding Not to earn God's love but to receive it Not to turn on the light but to step out of the shadows Jesus reveals a God on the prowl pursuing us hunting down his world for reconciliation And the question we're left with is not whether we've pursued hard enough searched long enough or jumped high enough The question is Do we want to be found

The New Nuclear Age Ankit Panda, 2025-01-31 The world is entering a new nuclear age Nuclear weapons are returning to the fore of international statecraft in ways unseen since the Cold War With major powers like Russia issuing threats of nuclear strikes China and North Korea continuing to grow their arsenals and new prospects for proliferation from the Middle East to East Asia the world has been thrust into a new era of heightened nuclear risk In this incisive book international security expert Ankit Panda explores the enduring and emerging factors that are contributing to this new nuclear age From strained great power ties to complex multipolar dynamics and the precipitous decline of arms control he shows how our coexistence with the bomb is becoming more complicated and perilous The prospect of nuclear escalation is again shaping how political decision makers and military establishments around the world think and act But unlike the peril of the Cold War a greater number of nuclear players and a plethora of new technologies including AI and exotic new weapons make the search for stability far from straightforward Managing the risks of a nuclear confrontation he argues will require new urgency and thinking to pull us back from the precipice of global catastrophe
