Common Life Through Poetry Frank Rosengarten, 2012-02-16 This book traces the life of Giacomo Leopardi by examining four different yet interrelated aspects: his social origins and class in relation to his evolving conception of nobility, the mixture of idealism and misogyny in his attitude toward women, and in his conception of love, his poems and prose on the theme of Italian independence, and his philosophical materialism as expressed in his poetry, intellectual diary, and essays. Frank Rosengarten pays particular attention to the ways in which the thought of Arthur Schopenhauer and Friedrich Nietzsche illuminates Leopardi's world view. He also devotes a section of the book to the different personal, moral, and philological components of Leopardi's humanism. Throughout, he maintains a sharp focus on the connections between Leopardi's life and the historical period in which he lived. The major themes and human concerns expressed in Leopardi's writings relate to his life experiences and to the historical period in which he lived. Of central interest are nobility and love, since Leopardi's perception of these two themes evolved and changed as he acquired a more general and universal conception of life. This fascinating combination of classical and modern perspectives on life and literature is highlighted throughout the book.

Thomas, 2015-12-01 A literary detective story a historical survey and an

important contribution to translation studies This book from Kenneth J Thomas is both a philological and linguistic analysis of Persian translations and a call for interfaith cooperation Thomas appraises biblical translation efforts from the fifth to the twenty first centuries of Persian history when successive translators and groups of translators sometimes of different faiths worked to reshape and refine versions of the Bible in the supple Persian language of their times Restless impelled and wide ranging this is a story of translations commissioned by shahs undertaken by Christian and Jewish communities and produced by teams working outside the country Features Demonstration of the effects of the lack of a standard Persian vocabulary for key biblical terms on literary style and word choice Technical analyses and overviews of Persian biblical translations A careful examination of sixteen centuries worth of Bible translations *In Search of Authenticity* Regina Bendix, 2009-07-30

Authenticity is a notion much debated among discussants as diverse as cultural theorists and art dealers music critics and tour operators The desire to find and somehow capture or protect the authentic narrative art object or ceremonial dance is hardly new In this masterful examination of German and American folklore studies from the eighteenth century to the present Regina Bendix demonstrates that the longing for authenticity remains deeply implicated in scholarly approaches to cultural analysis Searches for authenticity Bendix contends have been a constant companion to the feelings of loss inherent in modernization forever upholding a belief in a pristine yet endangered cultural essence and fueling cultural nationalism worldwide Beginning with precursors of Herder and Emerson and the discovery of the authentic in expressive culture and literature she traces the different albeit intertwined histories of German Volkskunde and American folklore studies A Swiss native educated in American folklore programs Bendix moves effortlessly between the two traditions demonstrating how the notion of authenticity was used not only to foster national causes but also to lay the foundations for categories of documentation and analysis within the nascent field of folklore studies Bendix shows that in an increasingly transcultural world where Zulu singers back up Paul Simon and where indigenous artists seek copyright for their traditional crafts the

politics of authenticity mingles with the forces of the market Arguing against the dichotomies implied in the very idea of authenticity she underscores the emptiness of efforts to distinguish between folklore and fakelore between echt and ersatz

In Search of La Grande Illusion Nicholas Macdonald, 2013-11-22 This is an extended analysis of the film from different perspectives The first half is largely a discussion of the cinematic technique with key sequences analyzed shot by shot The second half approaches the film from many other angles including its history the critical reception Renoir's life and career and film theory e g film in relation to music A case is made that Renoir's career was inconsistent especially after *La Règle du jeu* but also during the 1930s And rather than emphasizing the humanist anti war thrust of *La Grande Illusion* the film is approached as a work of art that is deeply expressive cinematically
