No Child Left Behind William Hayes, 2008-08-14 While few would quarrel with the goal of the No Child Left Behind legislation the nation is badly divided over whether the law is having a positive effect on our schools At the same time it is also true that most Americans including many professional educators have only a limited understanding of the content and scope of the legislation As we are currently engaged in a national debate about the future role of the federal government in the field of education it is essential that people become better informed about the history content and results of No Child Left Behind This book is a valuable tool informing the current discussion on the reauthorization of the law As a result the reader will be better able to make up his own mind as to the direction we should take as a nation in pursuing the noble objective of ensuring that no child is left behind

An Age of Accountability John L. Rury, 2023-10-13 *An Age of Accountability* highlights the role of test based accountability as a policy framework in American education from 1970 to 2020 For more than half a century the quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment The theory of change embedded in almost all test based accountability programs held that assessment with stipulated consequences could lead to major improvements in schools This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps which repeatedly failed to materialize But even after very clear disappointments no other policy framework has emerged to challenge its hegemony The American public today has little confidence in institutions to improve the quality of goods and services they provide especially in the public sector As a consequence many Americans continue to believe that accountability remains a vital necessity even if educators and policy scholars disagree

Stealing You Blind Iain Murray, 2011-07-11 Argues that the United States government is cheating its own people

The Death and Life of the Great American School System Diane Ravitch, 2010-03-02 Discusses how school choice misapplied standards of accountability the No Child Left Behind mandate and the use of a corporate model have all led to a decline in public education and presents arguments for a return to strong neighborhood schools and quality teaching

Failure Vicki E. Alger, 2016-07-01 A comprehensive account and frank assessment of federal involvement in education is long overdue Education policy expert Vicki E Alger remedies this deficiency with her book *Failure The Federal Miseducation of America s Children* As its title indicates *Failure* makes no effort to sugar coat its findings Created in 1979 after a lobbying campaign that spanned generations the Department of Education has failed to live up to its promises Federal involvement whether

related to testing funding or academic curricula has failed to abide by the Constitution's implication that education must remain the domain only of state and local governments and private institutions. Most of all, the central government's pervasive meddling in education has failed America's school children and their parents. Education policy has long been mired in controversies, often with opposing sides missing the mark. *Failure* helps us step back from the skirmish du jour and redirects our focus to the big picture, showing us what's gone wrong over the decades and the institutional causes of these failures. It also offers a bold blueprint for returning the federal government to its constitutional role and for cultivating an educational system that meets the needs of students and parents rather than bureaucrats. Concerned citizens of every stripe will benefit from *Failure's* history of federal education policy, its brutally honest report card for the Department of Education, its look at education systems across the globe, and its ambitious policy recommendations. *Failure* might even succeed in reframing the way the federal education establishment thinks about education policy.

No Child Left Behind and other Federal Programs for Urban School Districts Frank Brown, Richard C. Hunter, 2006-07-04 The No Child Left Behind (NCLB) Act is designed to close the achievement gap between disadvantaged and advantaged children through its Title I program. This book explores models to achieve equity in Title I schools and defines what is required of states in Title I schools. It examines how each state implements NCLB accountability standards.
