Limits Giorgos Kallis, 2019-08-06 This critical study artfully explores

the power of limits A compelling and fittingly concise read for our times Kate Raworth author of Doughnut Economics Western culture is infatuated with the dream of endless economic growth even as it is haunted by the specters of drought famine and nuclear winter How did we come to think of the planet and its limits as we do This book reclaims redefines and makes an impassioned plea for limits a notion central to environmentalism clearing them from their association with Malthusianism and the ideology and politics that go along with it In Limits Giorgos Kallis offers a critical reassessment of economist Thomas Robert Malthus and his legacy He separates the concepts of limits and scarcity which have long been conflated in both environmental and economic thought Limits are not a property of nature to be deciphered by scientists but a choice that confronts us one that paradoxically is part and parcel of the pursuit of freedom Taking us from ancient Greece to Malthus from hunter gatherers to the Romantics from anarchist feminists to 1970s radical environmentalists Limits shows us how an institutionalized culture of sharing can make possible the collective self limitation we so urgently need *The Twilight of Atheism* Alister McGrath, 2007-12-18 In this bold and provocative new book the author of *In the Beginning* and *The Reenchantment of Nature* challenges the widely held assumption that the world is becoming more secular and demonstrates why atheism cannot provide the moral and intellectual guidance essential for coping with the complexities of modern life Atheism is one of the most important movements in modern Western culture For the last two hundred years it seemed to be on the verge of eliminating religion as an outmoded and dangerous superstition Recent years however have witnessed the decline of disbelief and a rise in religious devotion throughout the world In *THE TWILIGHT OF ATHEISM* the distinguished historian and theologian Alister McGrath examines what went wrong with the atheist dream and explains why religion and faith are destined to play a central role in the twenty first century A former atheist who is now one of Christianity's foremost scholars McGrath traces the history of atheism from its emergence in eighteenth century Europe as a revolutionary worldview that offered liberation from the rigidity of traditional religion and the oppression of tyrannical monarchs to its golden age in the first half of the twentieth century Blending thoughtful authoritative historical analysis with incisive portraits of such leading and influential atheists as Sigmund Freud and Richard Dawkins McGrath exposes the flaws at the heart of atheism and argues that the renewal of faith is a natural inevitable and necessary response to its failures *THE TWILIGHT OF ATHEISM* will unsettle believers and nonbelievers alike A powerful rebuttal of the philosophy that for better and for worse has exerted tremendous influence on Western history it carries major implications for the future of both religion and unbelief in our society **The Poetical Works of Robert Southey. Complete in one volume. New edition** Robert Southey, 1847 [Check-Raising the Devil](#) Mike Matusow, 2013-09-25 Hang on tight as Mike The Mouth Matusow poker player extraordinaire takes you with him on a breathtaking true life roller coaster ride from his humble beginnings in a trailer park to a rock and roll lifestyle full of hot women sex wild drug filled parties and million dollar wins and losses Yet behind the glamour and glory of his high stakes poker career lurked the flip side a person torn between two debilitating

mental illnesses bipolar disorder and ADHD To dig himself out of depression and suicidal despair Matusow turned to dangerous street drugs to self medicate a problem he didn't understand and spiraled deeper into the darker world of addiction police narcotic stings and jail time Markets without Limits Jason F. Brennan, Peter Jaworski, 2015-08-20 May you sell your vote May you sell your kidney May gay men pay surrogates to bear them children May spouses pay each other to watch the kids do the dishes or have sex Should we allow the rich to genetically engineer gifted beautiful children Should we allow betting markets on terrorist attacks and natural disasters Most people shudder at the thought To put some goods and services for sale offends human dignity If everything is commodified then nothing is sacred The market corrodes our character Or so most people say In Markets without Limits Jason Brennan and Peter Jaworski give markets a fair hearing The market does not introduce wrongness where there was not any previously Thus the authors claim the question of what rightfully may be bought and sold has a simple answer if you may do it for free you may do it for money Contrary to the conservative consensus they claim there are no inherent limits to what can be bought and sold but only restrictions on how we buy and sell
