Operation Typhoon Hitler S March On Moscow October 1941hardcover:

Operation Typhoon David Stahel,2013-02-14 Fascinating new account of Hitler s Operation Typhoon launched in October 1941 and its significance for the wider German war effort *Operation Typhoon* Philippe Naud,2020-01-10 A visual look at the Nazi assault on the Soviet capital in the series that s a welcome addition targeted at the general World War II enthusiast
Globe at War After the initial successes of Operation Barbarossa at the end of September 1941 Hitler turned his focus to Moscow with the unshakeable belief that capturing the capital would knock the Soviets out of the war On the face of it it was an unequal matchup in Germany s favor but the picture was in fact a great deal more complex the Germans had suffered very significant losses since the invasion of Russia had begun and had issues with logistics and air support The Soviets under the command of Gen Zhukov were beginning to be better supplied with reinforcements and were prepared to defend to the death This volume in the Casemate Illustrated series concentrates on the main German assault of October 1941 Guderian s panzer divisions at first made sweeping gains as they had done so many times before and large parts of the Red Army were encircled at Vyazma and Bryansk These successes allowed the Soviets time to regroup as the encircled armies did not surrender and had to be dealt with Then three engagements followed at Mtsensk Maloyaroslavets and the Mojaisk defense line that proved that the war in the east was not entering its final days as German high command believed Illustrated with over 150 photographs plus profile drawings of tanks vehicles and aircraft this book gives a vivid impression of the situation for both protagonists and a detailed analysis of the critical days as the fate of Moscow and perhaps the whole war hung in the balance

Disaster at Moscow Alfred W. Turney,1970 Konev's Golgotha Mikhail Filippenkov,2019-06 This book is a historical study of the events of October 1941 in the Viaz ma pocket based on documents found in the Russian Federation s Central Archive of the Ministry of Defense the German Bundesarchiv and the US National Archives Mikhail Filippenkov describes the events that took place through the simultaneous comparative analysis of Soviet and German combat reports according to time and in the manner of reporting from the places of those events as they happened The author writes about these events with chronological accuracy not on the level of army headquarters and higher but exclusively on the level of the combat units down to the division level and with concrete geographical reference to the combat maps of those times Particular attention is paid to the events that took place in the vicinity of Sychevka in Smolensk Oblast because what happened there has never been deeply researched or examined by anyone in Russia Unfortunately research must rely primarily on the combat reports and combat documents of the units of the Wehrmacht s Panzergruppe 3 since almost no documents on the Soviet side have been preserved They were either destroyed together with the units and formations trapped within the Viaz ma pocket or destroyed at an order from above to those units and formations which managed to escape encirclement more or less intact in order to erase any record of the disaster *Moscow: The Turning Point?* Klaus Reinhardt,1992-11-30 Based on a wealth of source material the author sets out to refute the widely held view among historians and military experts that the German

defeat at Stalingrad in the winter of 1942-43 marked the turning point in the war. He shows how Hitler's attempt to crush the Soviet Union in a Blitz campaign was doomed to failure from the beginning and how defeat outside Moscow compromised his plans for a successful conclusion to the war.

The Drive on Moscow, 1941 Niklas Zetterling, Anders Frankson, 2018-07-19

At the end of September 1941 more than a million German soldiers lined up along the frontline just 180 miles west of Moscow. They were well trained, confident and had good reasons to hope that the war in the East would be over with one last offensive. Facing them was an equally large Soviet force but whose soldiers were neither as well trained nor as confident. When the Germans struck disaster soon befell the Soviet defenders. German panzer spearheads cut through enemy defenses and thrust deeply to encircle most of the Soviet soldiers on the approaches to Moscow. Within a few weeks most of them marched into captivity where a grim fate awaited them. Despite the overwhelming initial German success however the Soviet capital did not fall. German combat units as well as supply transport were bogged down in mud caused by autumn rains. General Zhukov was called back to Moscow and given the desperate task to recreate defense lines west of Moscow. The mud allowed him time to accomplish this and when the Germans again began to attack in November they met stiffer resistance. Even so they came perilously close to the capital and if the vicissitudes of weather had cooperated would have seized it. Though German units were also fighting desperately by now the Soviet build up soon exceeded their own.

THE DRIVE ON MOSCOW Operation Taifun 1941 is based on numerous archival records, personal diaries, letters and other sources. It recreates the battle from the perspective of the soldiers as well as the generals. The battle, not fought in isolation, had a crucial role in the overall German strategy in the East and its outcome reveals why the failure of the German assault on Moscow may well have been the true turning point of World War II. Niklas Zetterling is a researcher at the Swedish Defense College. Along with Anders Frankson he has previously written *Kursk 1943: A Statistical Analysis* and *The Korsun Pocket: The Encirclement and Breakout of a German Army in the East 1944*. Both authors currently live in Sweden.

The Battle for Moscow, 1941-1942 Albert Seaton, 1971

The Viaz'ma Catastrophe 1941 Lev Lopukhovskiy, 2025-04-30

The Viaz'ma Catastrophe 1941 describes one of the most terrible tragedies of the Second World War and the events preceding it. The horrible miscalculations made by the Stavka of the Soviet Supreme High Command and the Front commands led in October 1941 to the deaths and imprisonment of hundreds of thousands of their own people. Until recently the magnitude of the defeats suffered by the Red Army at Viaz'ma and Bryansk were simply kept hushed up. For the first time in this book a full picture of the combat operations that led to this tragedy are laid out in detail using previously unknown or little used documents. The author was driven to write this book after his long years of fruitless search to learn what happened to his father, Colonel N. I. Lopukhovskiy, the commander of the 120th Howitzer Artillery Regiment who disappeared together with his unit in the maelstrom of Operation Typhoon. He became determined to break the official silence surrounding the military disaster on the approaches to Moscow in the autumn of 1941. The author additionally introduces documents from German

military archives which will doubtlessly interest not only scholars but also students of the Eastern Front of the Second World War Lopukhovskiy substantiates his position on the matter of the true extent of the losses of the Red Army in men and equipment which greatly exceeded the official data In the Epilogue he briefly discusses the searches he has conducted with the aim of revealing the circumstances surrounding the deaths of Soviet soldiers who to this point have been listed among the missing in action including his own father The narrative is enhanced by numerous photographs colour maps and tables

Air Battle for Moscow 1941-1942 Dmitry Degtev, 2020-12-19 In October 1941 Operation Typhoon and the battle for Moscow began According to Hitler's plan it was to be the last offensive after which nothing could stop Germany from conquering Britain and the rest of Europe but first he had to overcome the Soviets and especially their air force Air Battle for Moscow is the first detailed description of one of the most vital yet little known air battles of the Second World War The battle for Moscow opened with the flights of long range reconnaissance aircraft which photographed Moscow and the Kremlin Then on 22 July 1941 Operation Clara Zetkin the Luftwaffe's aerial assault on Moscow began But the Luftwaffe was opposed by the Stalin's Falcons the elite 6th Air Defence Corps which defended the Soviet capital with a determination which saw bitter duels to the death and horrendous casualties on both sides The book presents new facts about this dramatic battle and describes in detail the actions of the aircrew on both sides Yet this is not just the story or the air war The authors also describe the lives of people during the war of suppressed anti Soviet opposition in Moscow and of the bloodthirsty and inhuman actions of the Stalin regime The book also tells of the fate of German pilots caught in Russian captivity and the adventures of those who were able to survive and escape from the Russian executioners Many myths concerning the battle are also challenged such as the often stated belief that Moscow's anti aircraft defences were the most powerful in the world and that it was the Soviets who were the finest pilots In this comprehensive account details of losses biographical outlines of the key individuals analyses of the different aircraft and a full chronology of the battle are presented as well as numerous exclusive photos documents and drawings But it is the stories of those who fought in the Battle for Moscow that undeniably have the greatest impact The harrowing tales of death and survival in conditions that are almost beyond description demonstrate just how important this conflict was to both Russia and the Third Reich and ultimately to the outcome of the Second World War Assault on Moscow, 1941 Werner Haupt, 1996 Detailed unit operations and individual accounts make for absorbing reading and a rare chance for the reader to examine an early yet very important Russian front battle *The Battle of Moscow* Albert Seaton, 1985 In late 1941 the world shuddered to watch the Soviet army crumbling before the Germans The fight for Moscow raged ferociously leaving in its wake a trail of atrocities unlike anything seen in human history This is the remarkable story of the battle that shattered the Nazi high command **The Viaz'ma Catastrophe, 1941** Lev Lopukhovskiy, 2013 Nominated for the NYMAS Arthur Goodzeit Book Award 2013 This book describes one of the most terrible tragedies of the Second World War and the events preceding it The horrible miscalculations made by the Stavka

of the Soviet Supreme High Command and the Front commands led in October 1941 to the deaths and imprisonment of hundreds of thousands of their own people. Until recently the magnitude of the defeats suffered by the Red Army at Viazma and Bryansk were simply kept hushed up. For the first time in this book a full picture of the combat operations that led to this tragedy are laid out in detail using previously unknown or little used documents. The author was driven to write this book after his long years of fruitless search to learn what happened to his father Colonel N I Lopukhovskiy, the commander of the 120th Howitzer Artillery Regiment who disappeared together with his unit in the maelstrom of Operation Typhoon. He became determined to break the official silence surrounding the military disaster on the approaches to Moscow in the autumn of 1941. In the present edition the author additionally introduces documents from German military archives which will doubtlessly interest not only scholars but also students of the Eastern Front of the Second World War. Lopukhovskiy substantiates his position on the matter of the true extent of the losses of the Red Army in men and equipment which greatly exceeded the official data. In the Epilogue he briefly discusses the searches he has conducted with the aim of revealing the circumstances surrounding the deaths of Soviet soldiers who to this point have been listed among the missing in action including his own father. The narrative is enhanced by numerous photographs, color maps and tables. Lev Nikolaevich Lopukhovskiy graduated from the prestigious Frunze Military Academy in 1962 and spent the next ten years serving in the Soviet Union's Strategic Rocket forces rising to the rank of colonel and a regiment commander before transferring to a teaching position in the Frunze Military Academy in 1972. Due to health reasons Lopukhovskiy is a professor with the Russian Federation's Academy of Military Sciences 2008 and has been a member of Russia's Union of Journalists since 2004. Since 1989 he has been engaged in the search for those defenders of the Fatherland who went missing in action in the Second World War including his own father Colonel N I Lopukhovskiy who is now known to have been killed while breaking out of encirclement in October 1941. Motivated by his father's disappearance he had previously taken up the intense study of the Viazma defensive operation and wrote the initial manuscript of the present book. In 1980 this manuscript was rejected by military censors because it contradicted official views. Lopukhovskiy is the author of several other books about the war including *Prokhorovka bez grifa sekretnosti* (Prokhorovka without the seal of secrecy) 2005, *Pervye dni voyny* (First days of the war) 2007 and is the co-author of *Iyun 1941. Zaprogrammirovannoe porazhenie* (June 1941. A Programmed Defeat) 2010. For his active search work he was awarded the civilian Order of the Silver Star. Stuart Britton is a freelance translator and editor residing in Cedar Rapids, Iowa. He has been responsible for making a growing number of Russian titles available to readers of the English language consisting primarily of memoirs by Red Army veterans and recent historical research concerning the Eastern Front of the Second World War and Soviet air operations in the Korean War.
