Environment, Energy and Applied Technology Wen-Pei Sung, Jimmy C.M. Kao, 2015-01-29 This proceedings volume brings together selected peer reviewed papers presented at the 2014 International Conference on Frontier of Energy and Environment Engineering Topics covered include energy efficiency and energy management energy exploration and exploitation power generation technologies water pollution and protection air pollution and **Energy Markets in Emerging Economies** Henry K. H. Wang, 2016-07-15 Energy Markets in Emerging Economies addresses current key issues new opportunities and various growth strategies relating to the energy markets in key emerging economies The book addresses key aspects including key oil and gas energy markets and their strategic ties to global petrochemical and chemicals shale gas and renewable energy growths It also provides insights on business strategies and market expansion strategies employed by MNCs and state owned companies in maintaining and defending their positions in the global market and in developing new markets and opportunities globally particularly in China India and the Middle East The strategic implications of the global oil and gas prices fluctuations on the industries are also discussed The practical and theoretical perspectives within the commercial context addressed in this book provide a clearer understanding of the energy markets and their leading players relevant not only to industry players but also interdependent markets **Optimizing Cyberdeterrence** Robert Mandel, 2017-03-01 Cyberattacks are one of the greatest fears for governments and the private sector The attacks come without warning and can be extremely costly and embarrassing Robert Mandel offers a unique and comprehensive strategic vision for how governments in partnership with the private sector can deter cyberattacks from both nonstate and state actors Cyberdeterrence must be different from conventional military or nuclear deterrence which are mainly based on dissuading an attack by forcing the aggressor to face unacceptable costs In the cyber realm where attributing a specific attack to a specific actor is extremely difficult conventional deterrence principles are not enough Mandel argues that cyberdeterrence must alter a potential attacker's decision calculus by not only raising costs for the attacker but also by limiting the prospects for gain Cyberdeterrence must also involve indirect unorthodox restraints such as exposure to negative blowback and deceptive diversionary measures and cross domain measures rather than just retaliation in kind The book includes twelve twenty first century cyberattack case studies to draw insights into cyberdeterrence and determine the conditions under which it works most effectively Mandel concludes by making recommendations for implementing cyberdeterrence and integrating it into broader national security policy Cyber policy practitioners and scholars will gain valuable and current knowledge from this excellent study *Local Content Oil and Gas Law in Africa* Pereowei Subai, 2019-01-10 Examining local content law and policy in the oil and gas industry this book uses Nigeria as a primary case study comparing its approach to countries such as Brazil and Norway which have also adopted local content laws in relation to their gas and oil industries In considering various aspects of local content law and policy as they apply to the oil and gas

industry the book examines the factors behind the formulation of local content policies by petroleum producing states and the various strategies they have employed to implement them It analyses arguments against local content requirements from the perspective of international trade and investment law and from liberal market economic theorists who argue against its overall usefulness The book highlights salient aspects of the oil and gas industry such as regulation national oil companies treatment of minorities and policy formulation and implementation *The Chemical Engineer* ,2009 *The Petroleum Economist* ,2008
