Production and Operations Management Singh S.P., This book covers the emerging and important topics related to production and operations management in a systematic way. It covers not only the essentials of planning, designing, managing, and controlling of manufacturing operations but also a number of relevant topics such as total preventive maintenance, environmental issues in production system, advanced production system, total productivity management, and work system design, which are not covered in many books. The book is a useful resource for undergraduate and postgraduate students of MBA programmes as well as B.Tech and M.Tech programmes of production and industrial engineering. Key Features: Theories and concepts based on day-to-day practical applications in the industry. Large number of solved examples to explain the theoretical concepts. Case study at the end of each chapter to illustrate the theory. Brings out the link between linear programming and its applications. *Operations Management* William J. Stevenson, 2012 We are pleased to present this Global Edition which has been developed specifically to meet the needs of international Operations Management students. In addition to coverage of the latest concepts and developments in this dynamic field and now with a greater emphasis on services, supply chain management, ethics, and sustainability, new material has been added to make the content more relevant and to improve the learning outcomes for the international student.

SmartBook Access Card for Operations Management, 12e William J. Stevenson, 2014-01-30 SmartBook™ is the first and only adaptive reading experience designed to change the way students read and learn. It creates a personalized reading experience by highlighting the most impactful concepts a student needs to learn at that moment in time. As a student engages with SmartBook, the reading experience continuously adapts by highlighting content based on what the student knows and doesn't know. This ensures that the focus is on the content he or she needs to learn while simultaneously promoting long-term retention of material. Use SmartBook's real-time reports to quickly identify the concepts that require more attention from individual students or the entire class.
