MARTINIST, COHEN AND ROSICRUCIAN RITUALS Joël DUEZ, *Esoteric Buddhism in Mediaeval Maritime Asia* Andrea Acri, 2016-09-05 This volume advocates a trans regional and maritime focused approach to studying the genesis development and circulation of Esoteric or Tantric Buddhism across Maritime Asia from the seventh to the thirteenth centuries ce The book lays emphasis on the mobile networks of human agents Masters textual sources Texts and images Icons through which Esoteric Buddhist traditions spread Capitalising on recent research and making use of both disciplinary and area focused perspectives this book highlights the role played by

Esoteric Buddhist maritime networks in shaping intra Asian connectivity In doing so it reveals the limits of a historiography that is premised on land based transmission of Buddhism from a South Asian homeland and advances an alternative historical narrative that overturns the popular perception regarding Southeast Asia as a periphery that passively received overseas influences Thus a strong point is made for the appreciation of the region as both a crossroads and rightful terminus of Buddhist cults and for the re evaluation of the creative and transformative force of Southeast Asian agents in the transmission of Esoteric Buddhism across mediaeval Asia

Zen Ritual Steven Heine,Dale S. Wright,2008 When books about Zen Buddhism began appearing in Western languages just over a half century ago there was no interest whatsoever in the role of ritual in Zen Indeed what attracted Western readers interest was the Zen rejection of ritual The famous Beat Zen writers were delighted by the Zen emphasis on spontaneity as opposed to planned repetitious action and wrote inspirationally about the demythologized anti ritualized spirit of Zen Quotes from the great Zen masters supported this understanding of Zen and led to the fervor that fueled the opening of Zen centers throughout the West Once Western practitioners in these centers began to practice Zen seriously however they discovered that zazen Zen meditation is a ritualized practice supported by centuries old ritual practices of East Asia Although initially in tension with the popular anti ritual image of ancient Zen masters interest in Zen ritual has increased along with awareness of its fundamental role in the spirit of Zen Eventually Zen practitioners would form the idea of no mind or the open and awakened state of mind in which ingrained habits of thinking give way to more receptive direct forms of experience This notion provides a perspective from which ritual could gain enormous respect as a vehicle to spiritual awakening and thus this volume seeks to emphasize the significance of ritual in Zen practice Containing 9 articles by prominent scholars about a variety of topics including Zen rituals kinhin and zazen this volume covers rituals from the early Chan period to modern Japan Each chapter covers key developments that occurred in the Linji Rinzai and Caodun Soto schools of China and Japan describing how Zen rituals mold the lives and characters of its practitioners shaping them in accordance with the ideal of Zen awakening This volume is a significant step towards placing these practices in a larger historical and analytical perspective
