

## An Old Timer Speaks . . . .

"By one who has nothing but the welfare of our craft at heart, this earnest plea is made—find out what good stains work really means—assure yourself that right materials are used in all cases to make permanent the beauty of the finish—take advantage of opportunities to learn how to create beautiful colored and textured effects—in short, be a craftsman as well as a plasterer."

John H. Donlin, author of "The Plasterer."

"There is an appreciation of the beauty in colored and textured walls today that will greatly increase the scope of the plasterer's work if he will but realize his opportunity and equip himself to do such work."

"Craftsmanship determines the beauty of a stucco finish. It requires considerable artistry to develop new and attractive textures and combinations of colors that will harmonize with other materials, with the architectural style of the building, and with the setting in which it is placed."

"The building industry looks to the plasterer to create this beauty in plastic materials by methods which will insure permanent results. It has put the question squarely to him to decide whether he will accept this commission or allow other artisans and other materials to usurp his place and his work."

*John H. Donlin*
