

An artistic illustration of two European Waxwings (Buteo) perched on a gnarled, light-brown branch. The bird in the upper left is shown in profile, facing left, with its head turned slightly towards the viewer. It has a reddish-brown crest, a black throat and face, and a body with warm, earthy tones of brown and orange. Its wings show a mix of grey, black, and white feathers. The bird in the lower right is also in profile, facing right, with its head turned slightly towards the viewer. It has a similar color palette but with more pronounced grey on its wings and tail. Both birds have a distinctive yellowish-tan patch on their tails. The branch they are perched on is adorned with several clusters of small, bright red berries. The background is a plain, light cream color.
