Post Secular Society:

Post-Secular Society Gustaaf Geeraerts, 2017-07-28 Post Secular Society argues for several characteristics of the secular the experience of living in a secular age and the experience of living without religion as a normal condition Religion in the West is often seen as marked by both innovation and disarray In spite of differing approaches and perspectives of secularization rational choice and de secularization many scholars agree that the West is experiencing a general resurgence of religion across most Western societies Post Secular Society discusses the changes in religion related to globalization and New Age forms of popular religion The contributors review religion that is rooted in the globalized political economy and the relationship of post secularism to popular consumer culture Also reviewed is innovative discourse as a religious belief system theories of the post secular religious and spiritual well being and healing practices in Finland and environmentalism This paperback edition includes a new preface by Peter Nynas The Post-secular in Question Philip Gorski, 2012-03-12 This collection of original essays by leading academics represents an interdisciplinary intervention in the continuing and ever transforming discussion of the role of religion and secularism in today s world Foregrounding the most urgent and compelling questions raised by the place of religion in the social sciences past and present The Post Secular in Question restores religion to a more central place in social scientific thinking about the world helping to move scholarship beyond unbelief book jacket The Making of a Postsecular Society Prof Dr Massimo Rosati, Professor Alessandro Ferrara, 2015-01-28 Based on a rigorous construction of theoretical categories and on a close scrutiny of the common challenges confronting Europe and its Turkish neighbour long considered other with regard to the accommodation of religious difference this book sheds light on the possibilities for Europe to find new ways of arranging the relationship between the secular and the religious As such it will appeal to scholars of social theory the sociology of religion secularisation and religious difference and social change **Reconfigurations** Stefanie Knauss, Alexander D. Ornella, 2007 From Once Upon a Time in the West to Moulin Rouge from Ghanaian video movies to Japanese Manga from Christian symbolism in advertising to the mythic significance of female messiah figures from the relationship of the arts and theology to the role of the audience in the meaningmaking process this book provides a feast for anyone wanting to explore the interconnectivity of religion media and society Post-secular Society, 2015 Islam in a Post-Secular Society Dustin Byrd, 2017-04-11 Islam in the Post Secular Society Religion Secularity and the Antagonism of Recalcitrant Faith critically examines the unique challenges facing Muslims in Europe and North America From the philosophical perspective of the Frankfurt School s Critical Theory this book attempts not only to diagnose the current problems stemming from a marginalization of Islam in the secular West but also to offer a proposal for a Habermasian discourse between the religious and the secular By highlighting historical examples of Islamic and western rapprochement and rejecting the clash of civilization thesis the author attempts to find a common language between the religious and the secular which can serve as a

vehicle for a future reconciliation Discoursing the Post-secular Péter Losonczi, Aakash Singh, 2010 This collection of fresh and lively essays analyzes the Habermasian post secular turn as it has been evolving over the last decade triggering intensive debates in social and political theory but at the same time aims to situate the arising postsecular discourse s within the larger intellectual environment shaped by the complex influence of the alleged return of religion or the religious The volume includes studies from as diverse fields as cultural theory social theory political philosophy and theory of religion as well as theology and bioethics Key issues such as tolerance the nature and challenges of modernity pluralism knowledge and faith human dignity ritual idolatry or transcendence are brought into the discussion in an inventive way and Habermas s work is reflected upon in comparison with figures like Levinas Vattimo and Agnes Heller *New Social Foundations for Education* Philip Wexler, Yotam Hotam, 2015 This volume is dedicated to the drawing of the implications of the contemporary post secular social transformation for education Contributions discuss such topics as the mystical tradition and its social and pedagogic implications transformative and ecological education and the relations between secular and religious education in different local contexts The Making of a Postsecular Society Massimo Rosati, 2015 **Multiple Modernities and Postsecular Societies** Kristina Stoeckl, 2016-04-15 Engaging with the idea that the world reveals not one but many routes to modernity this volume explores the role of religion in the emergence of multiple forms of modernity which evolve according to specific cultural conditions and interpretations of the modern project It draws upon case study material from Africa The Middle East Russia and South America to examine the question of whether modernity democracy and secularism are universalistic concepts or are on the contrary unique to Western civilization whilst considering the relationship of postsecularism to the varied paths of modern development Drawing together work from leading social theorists this critical theoretical contribution to current debates will appeal to sociologists social theorists and political scientists with interests in religion secularization and postsecularization theory and transitions to modernity in the contemporary globalized world

Religious Diversity in Post-Secular Societies Zakaria Sajir, *The Making of a Postsecular Society* Massimo Rosati, 2016-03-03 Drawing on the thought of Durkheim this volume focuses on societal changes at the symbolic level to develop a new conceptualisation of the emergence of postsecular societies Neo Durkheimian categories are applied to the case of Turkey which in recent years has shifted from a strong Republican and Kemalist view of secularism to a more Anglo Saxon perspective Turkish society thus constitutes an interesting case that blurs modernist distinctions between the secular and the religious and which could be described as postsecular Presenting three symbolic case studies the enduring image of the founder of the Republic Atatürk the contested site of Ayasofia and the remembering and commemoration of the murdered journalist Hrant Dink *The Making of a Postsecular Society* analyses the cultural relationship that the modern Republic has always had with Europe considering the possible implications of the Turkish model of secularism for a specifically European self understanding of modernity Based on a rigorous construction of theoretical categories and on a close scrutiny of the

common challenges confronting Europe and its Turkish neighbour long considered other with regard to the accommodation of religious difference this book sheds light on the possibilities for Europe to find new ways of arranging the relationship between the secular and the religious As such it will appeal to scholars of social theory the sociology of religion secularisation and religious difference and social change **POST-SECULAR SOCIETY : A102986223** P. NYNAS,2012

Europe Hans-Georg Ziebertz,Ulrich Riegel,2008 Religion is back on the agenda Western societies are searching for an adequate understanding of religion Media move religion into focus as a resource of significance in modern societies but also as a source of tension and conflict Politics is testing how to manage religious pluralism Education is developing concepts of interreligious dialogue in order to promote a better intercultural understanding The book discusses if the concept post secularity allows a suitable understanding of the public presence of religion *Global Secularisms in a Post-Secular Age* Michael Rectenwald,Rochelle Almeida,George Levine,2015-10-16 Global Secularisms addresses the state of and prospects for secularism globally Drawing from multiple fields it brings together theoretical discussion and empirical case studies that illustrate on the ground extant secularisms as they interact with various religious political social and economic contexts Its point of departure is the fact that secularism is plural and that various secularisms have developed in various contexts and from various traditions around the world Secularism takes on different social meanings and political valences wherever it is expressed The essays collected here provide numerous points of contact between empirical case studies and theoretical reflection This multiplicity informs and challenges the conceptual theorization of secularism as a universal doctrine Analyses of different regions enrich our understanding of the meanings of secularism providing comparative range to our notions of secularity Theoretical treatments help to inform our understanding of secularism in context enabling readers to discern what is at stake in the various regional expressions of secularity globally While the bulk of the essays are case based research the current thinking of leading theorists and scholars is also included **Explorations in Post-Secular Metaphysics** Josef Bengtson,2015-11-02 This book explores the metaphysical assumptions that underlie different interpretations of the relationship between religion and the secular faith and reason and transcendence and immanence It explores different answers to the question of how people of diverse religious and cultural identities can live together peacefully

Postsecular Cities Justin Beaumont,Christopher Baker,2011-06-16 This book reflects the wide spread belief that the twenty first century is evolving in a significantly different way to the twentieth which witnessed the advance of human rationality and technological progress including urbanisation and called into question the public and cultural significance of religion In this century by contrast religion faith communities and spiritual values have returned to the centre of public life especially public policy governance and social identity Rapidly diversifying urban locations are the best places to witness the emergence of new spaces in which religions and spiritual traditions are creating both new alliances but also bifurcations with secular sectors Postsecular Cities examines how the built environment reflects these trends Recognizing that the turn to the

postsecular is a contested and multifaceted trend the authors offer a vigorous open but structured dialogue between theory and practice but even more excitingly between the disciplines of human geography and theology Both disciplines reflect on this powerful but enigmatic force shaping our urban humanity This unique volume offers the first insight into these interdisciplinary and challenging debates

Europe Jürgen Habermas, 2009-07-13 In this work one of Europe's leading intellectuals examines the political alternatives facing Europe today and outlines a course of action for the future Habermas advocates a policy of gradual integration of Europe in which key decisions about Europe's future are put in the hands of its peoples

The Postsecular Political Philosophy of Jürgen Habermas Dafydd Huw Rees, 2018-09-01 This is the first full length treatment of Habermas postsecular political philosophy in English It gives a much more in depth analysis of this aspect of his work than the comparable books listed above It looks at this issue in the context of Habermas entire philosophical project drawing out hitherto overlooked connections It works as an intermediate level introduction to many aspects of Habermas philosophical project his social theory moral philosophy and metaphysics as well as his political theory and philosophy of religion

Religious Education in a Post-Secular Age Olof Franck, Peder Thalén, 2020-09-27 This book analyzes the changes and shifts in religious education in Europe over the past 50 years In a post secular age it has become increasingly difficult to make sharp distinctions between what is religious and non religious confessional and non confessional Reforms in religious education in Sweden in the 1960s appeared as part of a process of wider secular liberalization giving more credence to the idea of absolute neutrality in religious education However drastic shifts in society culture and the European religious landscape raise the need for a reevaluation of the foundations of religious education Drawing on a range of case studies from across Europe this book will appeal to students and scholars of religious education as well as post secular education more generally
