

After finishing all three years of high school and failing the state exam to enter college, Homer Hickam, Jr., had no options but to become a coal miner. But very shortly thereafter, he became part of a rocket team, and instead of becoming a coal miner, he became a rocket engineer. *Rocket Boys* is a memoir of his life as a rocket engineer, from his childhood days in Coalwood, West Virginia, to his time at college, his work on the *Mercury* program, and his time working for NASA as an engineer, designing rockets for the *Mars Science Laboratory*. In 2009, he published his first book, *Topgolf: Lessons about the History of the American Dream*. The book was a best-seller, and enabled Hickam to do full-time, successful speaking tours. In 2010, *Rocket Boys* (2001), a memoir about his high school years with the WCHS, was released as an international best-seller, and within a year of its release it had been adapted into a film, *October Sky*, starring Jake Gyllenhaal. In the last 15 years, Hickam has been an entrepreneur, author, and public speaker, authoring science fiction novels about outer space, additional memoirs about his childhood without electricity, and educational materials set during World War II. He resides in West Virginia.

Rocket Boys

① INTRODUCTION

BRIEF BIOGRAPHY OF HOMER B. HICKAM

Homer Hickam grew up in Weston, Virginia. While he was in high school, he and a large group of friends—members of the Big Creek Rocketry Agency (BCRA)—collaborated to design a series of amateur rockets. In 1961, their designs won the gold and silver medals from the National Science Fair. This inspired Homer (the plot of his memoir, *Rocket Boys*). Hickam then studied at Virginia Tech, graduating with a Bachelor's degree in Industrial Engineering. Following his time in college, Hickam served as a Project Engineer in the aluminum industry, where he was involved in aerospace fuel tank technology. He then worked for NASA as an engineer, designing rockets for the *Mars Science Laboratory*. In 2009, he published his first book, *Topgolf: Lessons about the History of the American Dream*. The book was a best-seller, and enabled Hickam to do full-time, successful speaking tours. In 2010, *Rocket Boys* (2001), a memoir about his high school years with the WCHS, was released as an international best-seller, and within a year of its release it had been adapted into a film, *October Sky*, starring Jake Gyllenhaal. In the last 15 years, Hickam has been an entrepreneur, author, and public speaker, authoring science fiction novels about outer space, additional memoirs about his childhood without electricity, and educational materials set during World War II. He resides in West Virginia.

HISTORICAL CONTEXT

The most important historical events related to *Rocket Boys* is the Cold War. Following the end of World War II, the United States and the Soviet Union were the only two remaining global superpowers. While the US, another U.S.S.R. never fought each other directly, they competed in various indirect ways.

RELATED LITERARY WORKS

Rocket Boys is a Bildungsroman—a coming-of-age story. While there are thousands of Bildungsromans, Hickam's memoir is a little different than the usual example of the genre, since his "protagonist," Homer, comes of age by discovering the beauty of science, mathematics, and engineering. In this regard, one close cousin of *Rocket Boys* is Sinclair Lewis's Pulitzer Prize-winning novel, *Arraignment* (1921), the story of a young boy from a small town, and his ascent to the position of a respected doctor. Arraignment was highly popular in its time, and it uses its tragic plot of career destruction (including several failed lawsuits) to study medicine. Hickam also writes two other memoirs about his early life and his experiences with engineering: *The Coalwood Way* (2000) and *Sky of Stone* (2002).

EXTRA CREDIT

While says writing is her [writing](#), Hickam's kickass has won various honors—science awards, medals, the military decorations, literary prizes—but received arguably his most impressive honor in 2004. In Alabama, Hickam acted as the inspirer of a writing publication in the Birmingham Moon, making his life lesson known to the participants through writing. For his incredible legacy, Hickam was awarded the Alabama Distinguished Service Award, one of the state's highest civilian honors.

Rocket Boys Day: In the late '90s, *Rocket Boys* was a huge best-seller, and inspired tremendous interest in West Virginia culture and history. In gratitude for over 100,000 books sold to just his store in the state, the governor of West Virginia, Carsten Casper, declared an annual "Rocket Boys Day" in celebration of Hickam's literary and scientific achievements.

PLOT SUMMARY

As the memoir begins, Homer Hickam, Jr., is busily preparing dinner in the mining town of Coalwood, West Virginia. His father is Homer Hickam, Sr., the superintendent of the mine. His mother is Ethel Hickam, who makes no secret of her dislike for the mine and mining, and her son, Homer Hickam, a transitory, popular football player.

In 1957, the Soviet Union launches a satellite called "Sputnik" into space. Homer and his friends gather outside to watch Sputnik pass over Coalwood. As the searchers, Homer realizes that his greatest ambition is to build **rockets**, and eventually to build satellites for the government, like the ones Dr. Werner von Braun.

Homer's final attempts at building rockets are comical. He ends
