Mummy... I Want to Be A Baby Again (Vol 1) Rubber Pants Version Ben Pathen,2021-04-23 It is arguably the most common theme in ABDL fiction becoming a baby again perhaps forever and perhaps completely so For many Adult Babies the idea of being able to give into our wishes and desires completely and without restriction is a wonderful concept and one that grabs our attention For the vast majority of adult babies the expression of our inner infant is complicated by endless compromises and limits on what we can actually do Our partners limit us Our finances limit us Social acceptance and the lack thereof limits us Friends employment family and other issues limit us But fiction can overcome all of these In fiction we can bend the rules of probability break the bounds of social norms and erase the limits that otherwise keep us from expressing our inner infancy the way we wish In these three books you will read of adults that become complete babies once more If they are not originally completely willing to become babies again they quickly discover the joys the peace and comfort of nappies rubber pants baby clothes bottle feeds and baby toys Infancy is entrancing to almost everyone but for those special people adult babies infancy is only a nappy change away and stories of grownups reverting to babyhood is less fiction than an innate desire that we express on the pages of a book Enjoy your stay in the world of refreshing infancy **The**

Buy, Buy Baby Susan Gregory Thomas, 2007 An investigative journalist examines how marketers exploit infants and toddlers and the broad often shocking impact of that exploitation on our society It s no secret that toy and media corporations manipulate the insecurities of parents to move their products but Buy Buy Baby unveils the chilling fact that these corporations are using and often funding the latest research in child development to sell directly to babies and toddlers Susan Gregory Thomas offers even more unnerving epiphanies the lack of evidence that educational shows and toys provide any educational benefit at all for young children and the growing evidence that some of these products actually impair early development and could harm our kids socially and cognitively for life Underlying these revelations is a dangerous economic and cultural shift our kids are becoming consumers at alarmingly young ages and suffering all the ills that rampant materialism used to visit only on adults from anxiety to hypercompetitiveness to depression Thomas blends prodigious reportage with an empathetic voice Her two daughters were toddlers while she wrote this book and she never loses sight of the temporal and emotional challenges that parents face She shows how we can help our kids live at their natural pace not the frenetic clip that serves only the toddler industrial complex Buy Buy Baby helps us fight the power marketers wield by exposing the false fears they spread
