Although homosexuality alone was no longer a cause for being unfit for service the principle applied to homosexual soldiers was compulsory military service yes career no In most cases same sex orientation made it impossible to become an officer And it was classified as a security risk It was not until 2000 that the Federal Ministry of Defense changed its course Klaus Storkmann is the first to examine the Bundeswehr's handling of homosexual soldiers on the basis of interviews court records and papers of the Federal Ministry of Defense A comparison with other armed forces and the public service in the Federal Republic of Germany places the Bundeswehr actions in a larger context The study proves that homosexuality has always been an issue in the military and continues to be so in many places it is based on retrospective views on former German armed forces in particular the National People's Army of the GDR and includes side glances at armies of other states **Brecht and Company** John Fuegi, 2002 The result of twenty five years of research on three continents Brecht and Company is a revolutionary portrait of one of the world's greatest theater artists and the people upon whom he built his reputation A noted Brecht scholar John Fuegi traces the evolution of Brecht's parasitic relationships and aggressive ambition through close analysis of diaries letters and drafts of the literary works revealing a man who was personally dazzling a genius at assembling and directing the plays created in his workshop but ultimately lacking in literary stamina for which he depended on his lovers A landmark study about the life and times of one of the most influential figures in twentieth century theater Brecht and Co will forever change our understanding of Brecht and his oeuvre An enormous fascinating biography The New Yorker One of the most important critical studies of the century New York Magazine Transatlantic Conversations Mary Evans, 2016-02-24 The second wave of feminism which challenged and changed many assumptions about the world in which we live was a product of various western cultures with no single country possessing a monopoly on the writing of the texts that became the canonical statements of the new feminism Though many of the contributions to feminist scholarship that went on to become internationally significant hailed from Europe and the United States these works were often formed within the context of local debates and framed within traditions of feminism and other political engagements specific to these nations Transatlantic Conversations explores the differences yielded by such conditions and their consequences for the meaning of feminism Examining the meaning and implications of the different ways in which various shared categories have been treated on both sides of the Atlantic this volume both analyses differences within feminism and provides a framework for the wider discussion of what is sometimes assumed to be the homogeneity of The West With leading scholars from either side of the Atlantic presenting brand new work Transatlantic Conversations suggests directions for future research which will be of interest to scholars of feminism gender studies sociology political science and international relations geography and cultural studies as well as anyone concerned with the ways in which the different political and intellectual traditions of Europe and the US have shaped current political and intellectual debates *Selling the Holocaust* Tim Cole, 2017-09-29 Cole shows us an Auschwitz land where tourists have become the ultimate ruberneckers passing by and gazing at someone else's

tragedy He shows us a US Holocaust Museum that provides visitors with a virtual Holocaust experience **The Ibis**, 1915

Marriage Discourses Jowan A. Mohammed, Frank Jacob, 2021-11-22 Marriage was historically not only a romantic ideal but a tool of exploitation of women in many regards Women were often considered commodities and marriage was far away from the romantic stereotypes people relate to it today While marriages served as diplomatic tools or means of political legitimization in the past the discourses about marital relationships changed and women expressed their demands more openly Discourses about marriage in history and literature naturally became more and more heated especially during the long 19th century when marriages were contested by social reformers or political radicals male and female alike The present volume provides a discussion of the role of marriage and the discourses about in different chronological and geographical contexts and shows which arguments played an important role for the demand for more equality in marital relationships It focuses on marriage discourses may they have been legal or rather socio political ones In addition the disputes about marriage in literary works of the 19th and 20th centuries are presented to complement the historical debates **Scents**

and Sensibility Catherine Maxwell, 2017-10-11 This lively accessible book is the first to explore Victorian literature through scent and perfume presenting an extensive range of well known and unfamiliar texts in intriguing and imaginative new ways that make us re think literature's relation with the senses Concentrating on aesthetic and decadent authors Scents and Sensibility introduces a rich selection of poems essays and fiction exploring these texts with reference to both the little known cultural history of perfume use and the appreciation of natural fragrance in Victorian Britain It shows how scent and perfume are used to convey not merely moods and atmospheres but the nuances of the aesthete or decadent's carefully cultivated identity personality or sensibility A key theme is the emergence of the olfactif the cultivated individual with a refined sense of smell influentially represented by the poet and critic Algernon Charles Swinburne who is emulated by a host of canonical and less well known aesthetic and decadent successors such as Walter Pater Edmund Gosse John Addington Symonds Lafcadio Hearn Michael Field Oscar Wilde Arthur Symonds Mark Andr Raffalovich Theodore Wratishlaw and A Mary F Robinson This book explores how scent and perfume pervade the work of these authors in many different ways signifying such diverse things as style atmosphere influence sexuality sensibility spirituality refinement individuality the expression of love and poetic creativity and the aura of personality dandyism modernity and memory A coda explores the contrasting twentieth century responses of Virginia Woolf and Compton Mackenzie to the scent of Victorian literature **A Tramp**

Abroad Mark Twain, 1889 **How Sex Changed** Joanne Meyerowitz, 2004-04-01 From early 20th century sex experiments in Europe to the saga of Christine Jorgensen whose sex change surgery made headlines in 1952 to today's growing transgender movement Meyerowitz gives us the first serious history of transsexuality focusing on the stories of transsexual men and women themselves Psychology of Sex Havelock Ellis, 1901 Studies in the Psychology of Sex: Sexual inversion. Unity ,1897 *Health Promotion in the Universities and Other Educational Settings* Miguel Corbí,Antoni Aguilo,Carmen Gallardo Pino,Mario Del Líbano ,Carlos Emanuel Rodriguez-Diaz,Hiram V. Arroyo Acevedo,2025-09-17 The promotion of health in universities is of great importance as it allows for the encouragement of healthy lifestyles and the prevention of diseases among students teaching staff and administrative personnel The university is a conducive environment for the promotion of healthy habits since firstly it is usually the moment when the students make decisions under their responsibility and secondly it is a place where academic sports and social activities take place so it is also an ideal moment to promote changes that can be transferred to society and the rest of the individual s life Health promotion in universities can cover several areas such as healthy eating physical exercise prevention of addictions emotional and social mental health among others It can also involve the entire university community from students to administrative and teaching staff In the case of students it is essential as it is a period of change and habit formation and the fact that they will be the future decision makers of society The American Journal of Psychology Granville Stanley Hall,Edward Bradford Titchener,Karl M. Dallenbach,Madison Bentley,Edwin Garrigues Boring,Margaret Floy Washburn,1906 Different Horrors, Same Hell Myrna Goldenberg,Amy Shapiro,2013-05-15 Different Horrors Same Hell brings together a variety of essays demonstrating the breadth of contributions that feminist theory and gender analysis make to the study of the Holocaust The collection provides new perspectives on central works of Holocaust scholarship and representation from the books of Hannah Arendt and Ruth Kluger to films such as Claude Lanzmann s Shoah and Steven Spielberg s Schindler s List Interviews with survivors and their descendants draw new attention to the significance of women s roles and family structures during and in the aftermath of the Holocaust and interviews and archival research reveal the undercurrents of sexual violence within the Final Solution As Doris Bergen shows in the book s first chapter the focus on women s and gender issues in this collection complicates familiar and outworn categories and humanizes the past in powerful ways The Body in the Anglosphere, 1880-1920 Robert W. Thurston,2021-12-30 Focusing on the body in every chapter this book examines the changing meanings and profound significance of the physical form among the Anglo Saxons from 1880 to 1920 They formed an imaginary but in many ways quite real community that ruled much of the world Among them racism became more virulent To probe the importance of the body this book brings together for the first time the many areas in which the physical form was newly or more extensively featured from photography through literature frontier wars violent sports and the global circus Sex sexuality concepts of gender including women s possibilities in all areas of life and the meanings of race and of civilization figured regularly in Anglo discussions Black people challenged racism by presenting their own photos of respectable folk As all this unfolded Anglo men and women faced the problem of maintaining civilized control vs the need to express uninhibited feeling With these issues in mind it is evident that the origins of today s debates about race and gender lie in the late nineteenth century
