The Black Populations of France Sylvain Pattieu,Emmanuelle Sibeud,Tyler Stovall,2022-02 The Black Populations of France is a study of Black peoples and their history in France and the French Empire during the modern era from the eighteenth century to the present The contributors to this collection explore three main axes The first addresses circulations the ways Black populations have moved through the spaces of metropolitan France and the empire and focuses on the actors themselves and the margins of maneuver available to them particularly as soldiers sailors immigrants or political militants The second considers legacies and the ways the past has informed the present addressing themes such as the memory of slavery the histories of Black women and gender and the historical influence of African Americans on Blacks in France The final axis considers racial policy and the ways the state has shaped racial discourses through the interactions between state policies and ideas of race developed by individuals organizations and communities The Black Populations of France makes an important contribution to both modern French history and the history of the global Black diaspora By putting these histories in dialogue with each other it underscores the central place of France in world history **Empire of Language** Laurent Dubreuil,2013-05-15 The relationship between power and language has been a central theme in critical theory for decades now yet there is still much to be learned about the sheer force of language in the world in which we live In Empire of Language Laurent Dubreuil explores the power language phenomenon in the context of European and particularly French colonialism and its aftermath Through readings of the colonial experience he isolates a phraseology based on possession in terms of both appropriation and haunting that has persisted throughout the centuries Not only is this phraseology a legacy of the past it is still active today especially in literary renderings of the colonial experience but also and more paradoxically in anticolonial discourse This phrase shaped the teaching of European languages in the former empires and it tried to configure the usage of those idioms by the Indigenes Then scholarly disciplines have to completely reconsider their discursive strategies about the colonial if at least they attempt to speak up Dubreuil ranges widely in terms of time and space from the ancien r gime through the twentieth century from Paris to Haiti to Quebec from the Renaissance to the riots in the banlieues He examines diverse texts from political speeches legal documents and colonial treatises to anthropological essays poems of the N gritude and contemporary rap ever attuned to the linguistic strategies that undergird colonial power Equally conversant in both postcolonial criticism and poststructuralist scholarship on language but also deeply grounded in the sociohistorical context of the colonies Dubreuil sets forth the conditions for an authentically postcolonial scholarship one that acknowledges the difficulty of getting beyond a colonialism and still maintains the need for an afterward **Bulletin des bibliothèques de France** ,1986 Bulletin de documentation bibliographique appears as separately paged section 1959 1964 70 **French and American Noir** Alistair Rolls,Deborah Walker,2009-08-21 A longstanding misconception surrounding the term French noir suggests that the post war French thriller and film noir were a development of or response to a pre existing

American tradition This book challenges this misconception examining the complexity of this trans Atlantic exchange and refocusing debate to include a Franco French lineage *Essais sur les cultures en contact.
