High School Physical Education Jacalyn Lea Lund, Mary Fortman Kirk, 2019-03-21 Performance Based Assessment for Middle and High School Physical Education is a cutting edge book that teachers trust for assessing middle school and high school physical education students. Also a highly popular undergraduate text for courses that focus on performance based assessment, this new third edition features significant additions, enhancements, and updates. New chapters on effective management and instruction delivery which make it appropriate for PETE instructors using the book for secondary methods courses. A new chapter on assessments with various instructional models including Sport Education, Teaching Games for Understanding, Cooperative Learning, Personalized System of Instruction, and Teaching Personal and Social Responsibility. A new chapter on assessing dance with sample dance units in the web resource. A new sample unit on ultimate Frisbee in the chapter on invasion games. An expanded section on cognitive assessments with suggestions for writing tests. Updated content on rubrics. Performance Based Assessment shows readers how to use portfolios to assess fitness and it offers an example of a portfolio assessment for a high school fitness course. It also guides readers in using skill tests in physical education. Written by two authors with a combined 26 years of experience teaching physical education in public schools, the text discusses various assessment formats helping PETE students and in-service teachers know both what to assess and how to assess it. Readers learn how to develop culminating and progressive assessments as well as plan for continuous performance based assessments and acquire effective teaching strategies for standards based instruction. All content is aligned with current SHAPE America national standards and is supported by research from educational assessment giants such as Tom Guskey, Richard Stiggins, Dylan William Robert Marzano, and James Popham. The book is organized into four parts with part I introducing readers to performance based assessment issues such as the need for change in the assessment process, how assessments can be used to enhance learning, the various assessment domains and methods, and the use of rubrics in assessments. Part II explores aspects of managing and implementing physical education lessons. In part III, readers learn about the components of performance based assessment and in part IV they delve into issues affecting grading and
