Johnson,Paula R. Golombek,2011-01-17 Embracing a sociocultural perspective on human cognition and employing an array of methodological tools for data collection and analysis this volume documents the complexities of second language teachers professional development in diverse L2 teacher education programs around the world including Asia South America Europe and North America and traces that development both over time and within the broader cultural historical and institutional settings and circumstances of teachers work This systematic examination of teacher professional development illuminates in multiple ways the discursive practices that shape teachers knowing thinking and doing and provides a window into how alternative mediational means can create opportunities for teachers to move toward more theoretically and pedagogically sound instructional practices within the settings and circumstances of their work The chapters represent both native and nonnative English speaking pre service and in service L2 teachers at all levels from K 12 through higher education and examine significant challenges that are present in L2 teacher education programs

**Inclusive Socratic Teaching** Jamie R. Abrams,2024-06-04 For more than fifty years scholars have documented and critiqued the marginalizing effects of the Socratic teaching techniques that dominate law school classrooms In spite of this

law school budgets staffing models and course requirements still center Socratic classrooms as the curricular core of legal education In this clear eyed book law professor Jamie R Abrams catalogs both the harms of the Socratic method and the deteriorating well being of modern law students and lawyers concluding that there is nothing to lose and so much to gain by reimagining Socratic teaching Recognizing that these traditional classrooms are still necessary sites to fortify and catalyze other innovations and values in legal education Inclusive Socratic Teaching provides concrete tips and strategies to dismantle the autocratic power and inequality that so often characterize these classrooms A galvanizing call to action this hands on guide equips educators and administrators with an inclusive teaching model that reframes the Socratic classroom around teaching techniques that are student centered skills centered client centered and community centered

Foundations of Interpersonal Practice in Social Work Brett Seabury, Barbara Seabury, Charles D. Garvin, 2010-10-12 Prev ed entered under Gervin Charles D has title Interpersonal practice in social work      **Globalization and the Critique of Political Economy** Lucia Pradella, 2014-11-27 The nature of the contemporary global political economy and the significance of the current crisis are a matter of wide ranging intellectual and political debate which has contributed to a revival of interest in Marx s critique of political economy This book interrogates such a critique within the broader framework of the history of political economy and offers a new appreciation of its contemporary relevance A distinctive feature of this study is its use of the new historical critical edition of the writings of Marx and Engels MEGA2 their partially unpublished notebooks in particular The sheer volume of this material forces a renewed encounter with Marx It demonstrates that the international sphere and non European societies had an increasing importance in his research which developed the scientific elements elaborated by Marx s predecessors This book questions widespread assumptions that the nation state was the starting point for the analysis of development It explores the international foundations of political economy from mercantilism to Adam Smith and David Ricardo and to Hegel and investigates how the understanding of the international political economy informs the interpretations of history to which it gave rise The book then traces the developments of Marx s critique of political economy from the early 1840s to Capital Volume 1 and shows that his deepening understanding of the laws of capitalist uneven and combined development allowed him to recognise the growth of a world working class Marx s work thus offers the necessary categories to develop an alternative to methodological nationalism and Eurocentrism grounded in a critique of political economy This book is essential reading for anyone interested in the development of Marx s thought and in the foundations of International Political Economy
