- Do not place this apparatus near or over a heated or hot object, or where it is exposed to direct sunlight.
- Do not place vessels (such as a cup) containing water on the apparatus, as this can result in a fire or electric shock.
- Do not expose this apparatus to rain or moisture.
- Be aware to contact an authorized Samsung service center for information if you intend to install your TV in a location with heavy dust, high or low temperatures, high humidity, chemical substances, or where it will operate 24 hours a day without an air supply, a power outlet, etc. Failure to do so may lead to serious damage to your TV.
- Do not expose this apparatus to dripping or splashing.

Mounting the TV on a wall

- If you mount this TV on a wall, follow the instructions carefully as set out by the manufacturer. If it is not correctly mounted, the TV may slide or fall and cause serious injury to a child or adult and serious damage to the TV.

- To enter the Samsung wall-mount kit, contact Samsung service center.
- Samsung Electronics is not responsible for any damage to the product or injury to yourself or others if you choose to install the wall-mount kit on your own.
- Samsung is not liable for any personal injury or property damage which is not caused by Samsung products or services. Samsung is not responsible for any damage to the product or injury to yourself or others if you choose to install the wall-mount kit on your own.
- You can install your wall-mount on a solid wall perpendicular to the floor. Before attaching the wall-mount kit to your wall, please refer to the Quick Setup Guide for more detailed information. If you install the TV on a ceiling or slanted wall, it may fall and result in serious personal injury.
- When installing a wall-mount kit, we recommend you follow all the VESA screws.
- If you want to install a wall-mount kit that attaches to the wall using two top screws only, be sure to use a Samsung wall-mount kit that supports this type of installation. This may not be able to prevent this type of wall-mount kit, depending on the geographical area.

- Do not mount the TV at more than a 75-degree tilt.
- Standard dimensions for wall-mount kits are shown in the table on the Quick Setup Guide.
- Do not install your wall-mount kit while your TV is turned on. This may result in personal injury from electric shock.
- Do not use tools that are longer than the standard dimensions or do not comply with the VESA standard screw specifications. Screws that are too long may cause damage to the inside of the TV set.
- For wall-mounting, do not comply with the VESA standard screw specifications. The length of the screws may differ depending on the wall-mount specifications.
- Do not hammer the screws into the wall. This may damage the product or cause the product to fall, leading to personal injury. Samsung is not liable for these kinds of accidents.
- Always have two people install the TV onto a wall.
- For 80" or larger models, have four people install the TV onto a wall.

Providing proper ventilation for your TV

- When you install your TV, maintain a distance of at least 10 cm between the TV and other objects (such as cabinet, other TV, etc.) to ensure proper ventilation. Improving ventilation may result in a fire or a problem with the product caused by an increase in the internal temperature.
- When you install your TV with a stand or a wall-mount, we strongly recommend you use parts provided by Samsung Electronics only. Using parts provided by another manufacturer may cause difficulties with the product or result in injury caused by the product falling.

Before Reading This User Manual

This TV comes with this User Manual and an embedded e-Manual (e-Manual) in the TV. (On the website www.samsung.com), you can download the manual and see its contents on your PC or mobile device.

- To protect this apparatus from lightning strikes, or to avoid it unattended and unused for a long time (especially when a fire, the storm, or the threat of a typhoon is forecast), be sure to unplug it from the wall outlet and disconnect the antenna or cable system.
- Accumulated dust can cause an electric shock, an electric discharge, or a fire by causing the power cord to generate sparks and heat or by causing the insulation to deteriorate.
- Use only a properly grounded plug and wall outlet.
- An improper ground may cause electric shock or equipment damage (Class I Equipment only).
- To turn off this apparatus completely, disconnect it from the wall outlet. To ensure you can unplug this apparatus quickly if necessary, make sure that the wall outlet and power plug are readily accessible.
