Handbook of Nonverbal Assessment R. Steve McCallum, 2013-06-29 Psychologists educators and related health care professionals spend an enormous amount of time and energy evaluating the abilities of children and adults they serve Assessment may be tailored to determine cognitive strengths and weaknesses academic progress the effects of central nervous system trauma personality and so on For many children and adults traditional verbally laden instruments cannot be used For example individuals who have speech and or language deficits hearing impairments emotional problems and those from other cultures cannot be evaluated with tests that rely on standard English Our culture is becoming increasingly diverse as a result schools and mental health professionals are required to serve an increasingly large community of nontraditional learners Because many of these individuals cannot be evaluated fairly by language loaded tests there is a need to use techniques and tools that are language free or can be adapted or modified to minimize the effect of language For these individuals language is a barrier to assessment rather than a vehicle The primary goal for the contributors to the Handbook of Nonverbal Assessment is to describe the most current assessment strategies and related best practices to professionals who serve individuals from diverse cultures or those who have difficulty using the English language such professionals include school psychologists special educators speech and hearing specialists rehabilitation coun and so on Alternative Assessments With Gifted and Talented Students Joyce VanTassel-Baska, 2021-09-03 Alternative Assessments With Gifted and Talented Students provides a concise and thorough introduction to methods for identifying gifted students in the school setting Including overviews of assessment tools and alternative methods of assessment as well as pertinent discussions concerning the need to identify gifted and talented students this book combines research and experience from top scholars in the field of gifted education in a convenient guide for teachers administrators and gifted education program directors Topics covered include the need for nonverbal testing with traditionally unidentified students the identification of students from minority populations the value of using traditional assessments with students the role of creativity tools as a measure of giftedness and the use of portfolios products and performance based assessment to document learning among others This handy guide to assessing and identifying gifted students is a necessity for anyone serving and working with this population A service publication of the National Association for Gifted Children Washington DC This designation indicates that this book has been jointly developed with NAGC and that this book passes the highest standards of scholarship research and practice

Identification Scott Hunsaker, 2023-05-31 Editor Scott L Hunsaker's new volume sheds much needed light on the process of identifying students for gifted education services a topic surrounded by controversy and confusion With contributions from leading experts in the field *Identification* takes an in depth look at the research and practice of identification of gifted and talented students Each of the four sections tackles an important aspect of the issue Theoretical Foundations Professional Foundations Identification Practice and Instrumentation The text presents multiple points of view and does not shy away
