Organization and Administration of Physical

Education Jayne D. Greenberg, Judy L. LoBianco, 2025-03-11 The revised SHAPE America National Physical Education Standards are defining physical education (PE) programs providing the framework for students' physical literacy journeys. Organization and Administration of Physical Education: Theory and Practice, Second Edition, with HKPropel Access incorporates the revised standards, making it the text administrators need to learn how the standards affect curriculum development and implementation of a successful PE program. This edition is thoroughly updated by two award-winning educators, Jayne Greenberg and Judy LoBianco, who are joined by a sterling list of contributors who have taught at every education level in urban, suburban, and rural settings. In this second edition, the roles and responsibilities of PE administrators are examined through theoretical and practical lenses. Beyond incorporating the revised PE standards and the latest research throughout, other enhancements to this edition include the following: An expanded technology chapter that addresses equity and the digital divide, remote learning, virtual and augmented reality, and artificial intelligence. A more comprehensive chapter on teacher and program evaluation. A new chapter on social emotional learning (SEL) with connections between content, pedagogy, and practices. A new chapter on diversity, equity, and inclusion that provides culturally responsive teaching approaches to elevate the participation of underrepresented teachers and students. New content for physical education department chairpersons. The result is an essential manual for future and current administrators in PE leadership positions who want to acquire new skills in the primary six areas of responsibility. Part I explores leadership and management styles and presents practical theories of motivation, development, and planning for the essential components of a quality PE program. In part II, readers examine various curriculum, instruction, and assessment models and get guidance on planning special events. Part III helps administrators plan new school facilities or renovate existing ones and it presents contemporary concepts in universal design and sustainable environmental design. It also offers ideas on how to incorporate technology, including developing online PE courses. Part IV explores communication, legal issues, and human resources so administrators can learn how to advocate for their programs. Part V explains the fiscal responsibilities inherent in administrative positions and shows how administrators can secure independent funding, offering many examples of grants and fundraising.

opportunities with sample grant applications Part VI new to this edition explores the integration of content and pedagogy with SEL practices It also offers legal and practical strategies to enhance the involvement of those who are underrepresented in PE Each chapter also includes sidebars from professionals who share tips and insights on successful program implementations To further enhance practical application readers have online access to downloadable forms checklists and other supportive materials Published with SHAPE America this text offers the solid foundational theory and practices needed for today's challenges in PE administration Note A code for accessing HKPropel is included with this ebook

Cancer, Radiation Therapy, and the Market Barbara Bridgman Perkins, 2017-08-16 Appraising cancer as a major medical market in the 2010s Wall Street investors placed their bets on single technology treatment facilities costing 100 300 million each Critics inside medicine called the widely publicized proton center boom crazy medicine and unsustainable public policy There was no valid evidence they claimed that proton beams were more effective than less costly alternatives But developers expected insurance to cover their centers staggeringly high costs and debts Was speculation like this new to health care Cancer Radiation Therapy and the Market shows how the radiation therapy specialty in the United States later called radiation oncology coevolved with its device industry throughout the twentieth century Academic engineers and physicians acquired financing to develop

increasingly powerful radiation devices initiated companies to manufacture the devices competitively and designed hospital and freestanding procedure units to utilize them In the process they incorporated market strategies into medical organization and practice Although palliative benefits and striking tumor reductions fueled hopes of curing cancer scientific research all too often found serious patient harm and disappointing beneficial impact on cancer survival This thoroughly documented and provocative inquiry concludes that public health policy needs to re evaluate market driven high tech medicine and build evidence based health care systems Instructional Practices with and without Empirical Validity Bryan G. Cook,Melody Tankersley,Timothy J. Landrum,2016-07-06 It is important for Stakeholders to be aware of both practices supported as effective as well as ineffective for students with learning and behavioral disabilities in order to provide instruction that results in improved learner outcomes in critical areas of education
