The Franchising Handbook Carl Reader, 2016-07-14 Most small business books focus on what it takes to start a small business and not what it takes to start a franchise. At best these books might allocate a single chapter to the concept of franchising and at worst the author presumes that franchises are the same as any other business start up. The world of franchising has its own nuances and advice that works for 99% of start ups would not apply to franchising. In fact well meaning advice can often be detrimental to potential franchisees. This book is focused on making sure that potential franchisees are aware of the specific journey ahead of them. As franchising is a two way business arrangement it includes exactly what franchisors are looking for what can or cannot be negotiated with a franchisor and how best to present yourself to ensure that you win the franchise you want. **Blackwell's Five-Minute Veterinary Practice Management Consult**

Drone Operations in United Kingdom Eugen Toma,

Unmanned aircraft systems UAS commonly referred to as drones have rapidly become a vital tool across the United Kingdom From recreational hobbyists flying for fun to professional operators conducting inspections surveys and emergency response missions drones are reshaping the way we work play and interact with the airspace In the U K drone operations are regulated by the Civil Aviation Authority CAA The CAA's role is to ensure that drone activities are carried out safely responsibly and in compliance with aviation law Unlike in some countries where regulations differ significantly between commercial and recreational flying the U K has adopted a risk based framework that applies rules consistently depending on the category of operation rather than whether the flight is commercial or hobby This means that whether you are a filmmaker flying for business a surveyor collecting data or simply a recreational flyer enjoying your drone at a park the same fundamental safety principles apply However professional and higher risk operations require additional authorizations training and risk assessments
